Independent Auditors' Report

To the Board of Directors of WIN Semiconductors Corp.:

Opinion

We have audited the consolidated financial statements of WIN Semiconductors Corp. and its subsidiaries ("the Group"), which comprise the consolidated balance sheets as of December 31, 2021 and 2020, the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, based on our audits and the report of another auditor (please refer to Other Matter paragraph), the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IASs"), Interpretations developed by the International Financial Reporting Interpretations Committee ("IFRIC") or the former Standing Interpretations Committee ("SIC") endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. Based on our audits and the report of another auditor, we believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In our judgment, the key audit matters we communicated in the auditors' report were as follows:

Evaluation of inventory

Please refer to Note 4(h) "Inventories" for accounting policies, Note 5 for accounting assumptions, judgments and estimation uncertainty of inventories, and Note 6(e) for the amount of loss on valuation of inventories of the consolidated financial statements.

Description of key audit matter:

Due to the high industry demand and rapid fluctuation of the price of precious metals, the Group stored a significant volume of the said material, which resulted in slow turnover of inventories. Therefore, the Group cannot obtain sufficient information on inventories that were sold or used on the reporting date. Since the technology changes rapidly, the inventory may be out of date or may not conform to market demand, resulting in a risk wherein the carrying amount of inventories may exceed its net realizable value. Consequently, the evaluation of inventory is identified as a key matter in our audit.

How the matter was addressed in our audit

Our principal audit procedures included: Testing the accuracy of the estimations of inventories at the lower of cost and net realizable value. Referring to the recent selling price and considering the amount of written-off inventories in the subsequent events to evaluate the appropriateness of the amount of loss on valuation of inventories or obsolescence. Analyzing the historical accuracy of judgments, including inspecting the amount of loss on valuation of inventories or obsolescence recognized in prior year and with reference to actual disposal to assess rationality of the judgments of the current period. Moreover, comparing with the provision for inventories valuation and obsolescence made in the current year to evaluate the appropriateness of the assumptions.

Other Matter

We did not audit the financial statements for the year ended December 31, 2021 of certain investments accounted for using the equity method. That financial statements for the year ended December 31, 2021 were audited by another auditor, whose audit report has been furnished to us, and our conclusion, insofar as it relates to the amounts included in these investments, is based solely on the audit report of another auditor. The investment accounted for using the equity method amounted to $9,678,934 thousand, constituting 12.92% of consolidated total assets as of December 31, 2021, the related share of profit of associates and joint ventures accounted for using the equity method amounted to $306,374 thousand, and the related shares of other comprehensive income of associates and joint ventures accounted for using the equity method amounted to $25,420 thousand, constituting 5.62% and 0.47% of consolidated total comprehensive income and loss for the year ended December 31, 2021, respectively.

WIN Semiconductors Corp. has prepared its parent-company-only financial statements as of and for the years ended December 31, 2021 and 2020, on which we have issued an unmodified opinion with other matter paragraph.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the IFRSs, IASs, IFRIC as well as SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is also responsible for assessing the Group’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including members of the Audit Committee) are responsible for overseeing the Group’s financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Chia-Chien Tang and Ming-Hung Huang.

KPMG

Taipei, Taiwan (The Republic of China)

WIN Semiconductors Corp. and Subsidiaries

Consolidated Statement of Cash Flows

For the years ended December 31, 2021 and 2020

(Expressed in Thousands of New Taiwan Dollars)

	2021	2020
Cash flows from (used in) operating activities:		
Profit before tax	$ 6,399,879	8,002,183
Adjustments:		
Adjustments to reconcile profit (loss):		
Depreciation expense	4,034,973	3,627,595
Amortization expense	132,369	108,881
Losses on expected credit impairment	694	23
Net gains on financial assets or liabilities at fair value through profit or loss	(365,198)	(156,103)
Interest expense	309,380	92,964
Interest income	(37,752)	(29,425)
Dividend income	(47,766)	(200,473)
Share-based payments	49,178	81,700
Shares of profit of associates and joint ventures accounted for using equity method	(198,535)	(126,030)
Losses (gains) on disposal of property, plant and equipment	49,183	(21,124)
Prepayments for business facilities transferred to expenses	986	860
Changes in biological assets at fair value	(7,506)	21,326
Unrealized foreign exchange gains	(92,825)	(189,575)
Losses on lease modification	19,584	-
Impairment loss	-	159,382
Total adjustments to reconcile profit (loss)	3,846,765	3,370,001
Changes in operating assets and liabilities:		
Changes in operating assets:		
Decrease (increase) in financial assets at fair value through profit or loss	703,208	(260,952)
(Increase) decrease in notes and accounts receivable	(680,697)	369,104
Increase in inventories	(1,425,949)	(1,143,801)
Increase in biological assets	(19,965)	(544,683)
Increase in other current assets	(10,162)	(150,175)
Total changes in operating assets	(1,433,565)	(1,730,507)
Changes in operating liabilities:		
(Decrease) increase in contract liabilities	(181,269)	274,000
Increase (decrease) in notes and accounts payable	368,157	(31,546)
Increase in other payables	370,172	125,415
Increase (decrease) in other current liabilities	19,693	(3,118)
Increase in other non-current liabilities	1,044	1,186
Total changes in operating liabilities	577,797	365,937
Total changes in operating assets and liabilities	(855,768)	(1,364,570)
Cash inflow generated from operations	9,390,876	10,007,614
Dividends received	31,181	45,267
Income taxes paid	(1,607,345)	(1,297,860)
Net cash flows from operating activities	7,814,712	8,755,021
Cash flows from (used in) investing activities:		
Acquisition of financial assets at fair value through other comprehensive income	(2,744,229)	(1,507,183)
Proceeds from disposal of financial assets at fair value through other comprehensive income	313,827	75,188
Proceeds from capital reduction of financial assets at fair value through other comprehensive income	10,000	6,667
Acquisition of financial assets at fair value through profit or loss	(614,629)	(396,208)
Proceeds from disposal of financial assets at fair value through income	-	318,337
Proceeds from capital reduction of financial assets at fair value through profit or loss	901	-
Acquisition of investments accounted for using equity method	(3,619,063)	(170,913)
Acquisition of property, plant and equipment	(6,728,213)	(6,877,801)
Proceeds from disposal of property, plant and equipment	11,005	62,365
Acquisition of intangible assets	(93,632)	(286,719)
Net cash inflows from business combination	458	-
Acquisition of right-of-use assets	(51,976)	(17,866)
Increase in other non-current assets	(39,305)	(210,108)
Increase in prepayments for business facilities	(1,352,663)	(1,630,995)
Interest received	37,629	28,405
Dividends received	275,484	152,682
Net cash flows used in investing activities	(14,594,406)	(10,454,149)
Cash flows from (used in) financing activities:		
Issuance of convertible bonds payable	13,902,774	-
Proceeds from long-term debt	7,759,270	8,348,293
Repayments of long-term debt	(3,081,000)	(2,632,500)
Increase (decrease) in other non-current liabilities	5,666	(879)
Repayments of lease liabilities	(123,806)	(96,721)
Cash dividends paid	(4,240,414)	(2,968,394)
Interest paid	(87,000)	(47,327)
Changes in non-controlling interests	695,982	1,577,880
Net cash flows from financing activities	14,831,472	4,180,352
Effect of exchange rate changes on cash and cash equivalents	(76,289)	(51,427)
Net increase in cash and cash equivalents	7,975,489	2,429,797
Cash and cash equivalents at beginning of period	8,356,270	5,926,473
Cash and cash equivalents at end of period	$ **16,331,759**	**8,356,270**

See accompanying notes to consolidated financial statements.

(English Translation of Consolidated Financial Statements Originally Issued in Chinese)

WIN Semiconductors Corp. and Subsidiaries

Notes to the Consolidated Financial Statements

For the years ended December 31, 2021 and 2020

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history:

WIN Semiconductors Corp. (the "Company") was incorporated on October 16, 1999 as a company limited by shares and registered under the Ministry of Economic Affairs, R.O.C. The address of the Company's registered office is No. 69, Keji 7th Rd., Hwaya Technology Park, Guishan Dist., Taoyuan City, Taiwan.

The main operations of the Company and its subsidiaries (together referred to as "the Group") are as follows:

(a) Researching, developing, manufacturing, and selling of GaAs wafers.

(b) Developing hog farming technology and trading.

(c) Researching, manufacturing and selling of high-density gene chips, biochip optical readers, micro-electrophoresis analyzers and diagnostic tool for endometrial cancer.

(2) Approval date and procedures of the consolidated financial statements:

These consolidated financial statements were reported for issuance by the Board of Directors as of March 18, 2022.

(3) New standards, amendments and interpretations adopted:

(a) The impact of the International Financial Reporting Standards ("IFRSs") endorsed by the Financial Supervisory Commission, R.O.C. ("FSC") which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2021:

- Amendments to IFRS 4 "Extension of the Temporary Exemption from Applying IFRS 9"
- Amendments to IFRS 9, IAS39, IFRS7, IFRS 4 and IFRS 16 "Interest Rate Benchmark Reform—Phase 2"
- Amendments to IFRS 16 "A one-year extension to the practical expedient for COVID-19 related rent concessions"

(Continued)

(b) The impact of IFRS issued by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2022, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS 16 "Property, Plant and Equipment－Proceeds before Intended Use"
- Amendments to IAS 37 "Onerous Contracts－Cost of Fulfilling a Contract"
- Annual Improvements to IFRS Standards 2018–2020
- Amendments to IFRS 3 "Reference to the Conceptual Framework"

(c) The impact of IFRS issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Group, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"	The amendments aim to promote consistency in applying the requirements by helping companies determine whether, in the statement of balance sheet, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current. The amendments include clarifying the classification requirements for debt a company might settle by converting it into equity.	January 1, 2023
Amendments to IAS 12 "Deferred Tax related to Assets and Liabilities arising from a Single Transaction"	The amendments narrowed the scope of the recognition exemption so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.	January 1, 2023

The Group is evaluating the impact of its initial adoption of the abovementioned standards or interpretations on its financial position and consolidated financial performance. The results thereof will be disclosed when the Group completes its evaluation.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

The Group does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 17 “ Insurance Contracts” and amendments to IFRS 17 “ Insurance Contracts”
- Amendments to IAS 1 “Disclosure of Accounting Policies”
- Amendments to IAS 8 “Definition of Accounting Estimates”

(4) Summary of significant accounting policies:

The significant accounting policies presented in the consolidated financial statements are summarized below. The following accounting policies were applied consistently throughout the periods presented in the consolidated financial statements.

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as “the Regulations”) and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations endorsed and issued into effect by the Financial Supervisory Commission, R.O.C.

(b) Basis of preparation

(i) Basis of measurement

The consolidated financial statements have been prepared on a historical cost basis except for the following significant accounts:

1) Financial assets at fair value through profit or loss are measured at fair value;

2) Financial assets at fair value through other comprehensive income are measured at fair value;

3) Biological assets are measured at fair value less costs to sell;

4) The net defined benefit liabilities are recognized as the present value of the defined benefit obligation, and the effect of the plan assets ceiling disclosure in Note 4(r) less plan assets.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

(ii) Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in Taiwan Dollars (TWD), which is the Company' s functional currency. All financial information presented in TWD has been rounded to the nearest thousand.

(c) Basis of consolidation

(i) Principles of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and its subsidiaries. Subsidiaries are entities controlled by the Group. When the Company is exposed to the variable remuneration from investing on other individual or sharing the rights of the remuneration, also, is able to influence the rewards, the Company controls the individual.

The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. Transactions, balances and any other unrealized profit or loss between the Company and other subsidiaries are all eliminated while preparing the consolidated financial reports. Comprehensive income (loss) of subsidiaries belongs to owner of the Company and the non-controlling interest respectively. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

Financial reports of subsidiaries had been adjusted properly and the accounting policies used in subsidiaries are same to the Group's accounting policies.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Differences between the amount paid or received from fair value and the adjustment of the non-controlling interest are directly realized to the equity and belong to the owners of the Company.

(ii) Losing control of subsidiaries

When the Group loses control of its subsidiaries, the assets (including goodwill) and liabilities and any non-controlling interests of the former subsidiary at their carrying amounts at the date when control is lost will be derecognized and any investment retained in the former subsidiary at its fair value at the date when control is lost will be remeasured in the consolidated financial statement. The difference of disposal gain or loss is between the aggregate of (i) the fair value of the consideration received and any investment retained in the former subsidiary at its fair value at the date when control is lost and (ii) the assets (including goodwill) and liabilities and any non-controlling interests of the former subsidiary at their carrying amounts at the date when control is lost. The Group accounts for all amounts recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

WIN Semiconductors Corp. and Subsidiaries

Note 1: For the related information of the shareholding percentage change, please refer to Note 6(i).

Note 2: The aforementioned subsidiaries were recognized based on the audited financial statements by the certified public accountant.

(iv) List of subsidiaries which are not included in the consolidated financial statements: None.

(d) Foreign currency

(i) Foreign currency transaction

Transactions in foreign currencies are translated into the respective functional currencies of the Group at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate of the date the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of translation.

Exchange differences are generally recognized in profit or loss, except for the following differences which are recognized in other comprehensive income that arises from the retranslation:

- an investment in equity securities designated as at fair value through other comprehensive income;
- a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- qualifying cash flow hedges to the extent that the hedges are effective.

(ii) Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated to the reporting currency of the consolidated financial statements at the exchange rates of the reporting date. The income and expenses of foreign operations are translated to the reporting currency of the consolidated financial statements at average rate. Foreign currency differences are recognized in other comprehensive income, and presented in the foreign currency translation reserve in equity.

However, if the foreign operation is a non-wholly owned subsidiary, then the relevant proportion of the translation difference is allocated to non-controlling interests. When a foreign operation is disposed of such that control, significant influence or joint control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal. When the Group disposes any part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interest. When the Group disposes of only part of investment in an associate of joint venture that includes a foreign operation while retaining significant or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

(Continued)

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely predicted in the foreseeable future, the foreign currency gains and losses arising from such items are considered to a part of investment in the foreign operation and are recognized in other comprehensive income.

(e) Classification of current and non-current assets and liabilities

An asset is classified as current under one of the following criteria, and all other assets are classified as non-current:

(i) It expects to be realized, or intends to be sold or consumed, in the normal operating cycle;

(ii) It holds primarily for the purpose of trading;

(iii) It expects to be realized within twelve months after the reporting period; or

(iv) The asset is cash or a cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current:

(i) It expects to be settled in the normal operating cycle;

(ii) It holds primarily for the purpose of trading;

(iii) It is due to be settled within twelve months after the reporting period; or

(iv) It does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by issuing equity instruments do not affect its classification.

(f) Cash and cash equivalents

Cash comprises cash on hand and cash in bank. Cash equivalents consist of highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Time deposits, which meet the above criteria and for the purpose of fulfilling short term commitments instead of the purpose of investing activities or others, are categorized as cash equivalents.

(g) Financial instruments

Trade receivables are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(Continued)

(i) Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date and settle date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost; fair value through other comprehensive income (FVOCI); or fair value through profit and loss (FVTPL). Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model. Regular way purchase or sales of financial assets shall be recognized and derecognized, as applicable, using trade day.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment’s fair value in other comprehensive income. This election is made on an instrument-by-instrument basis.

(Continued)

Debt investments at FVOCI are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in profit or loss. Other net gains and losses are recognized in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income from equity investments is recognized in profit or loss on the date on which the Group's right to receive payment is established, which is normally the ex-dividend date.

3) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described above are measured at FVTPL, including derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

4) Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial assets on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features)

(Continued)

5) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, notes and accounts receivable, other receivables, refundable deposits and other financial assets).

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowances for accounts receivable are always measured at an amount equal to lifetime ECL.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available (without undue cost or effort). This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment, as well as forward-looking information.

The Group considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade which is considered to be BBB- or higher per Standard & Poor's, Baa3 or higher per Moody's or twA or higher per Taiwan Ratings'.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when the financial asset is more than 180 days past due.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

(Continued)

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is ‘credit-impaired’ when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following events:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for a financial asset because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from its carrying amount. For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. The Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group’s procedures for recovery of amounts due.

6) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

(ii) Financial liabilities

1) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

3) Compound financial instruments

Compound financial instruments issued by the Group comprise convertible bonds denominated in TWD that can be converted to ordinary shares at the option of the holder, when the number of shares to be issued is fixed and does not vary with changes in fair value.

The liability component of compound financial instruments is initially recognized at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognized at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. The equity component of a compound financial instrument is not remeasured.

Interest related to the financial liability is recognized in profit or loss. On conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognized.

4) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

5) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

6) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(iii) Derivative financial instruments and hedge accounting

The Group holds derivative financial instruments to hedge its foreign currency exposures. Derivatives are recognized initially at fair value and attributable transaction costs are recognized in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized in profit or loss, and are included in other gains and losses. When a derivative is designated as a hedging instrument, its timing of recognition in profit or loss is determined based on the nature of the hedging relationship. When the fair value of a derivative instrument is positive, it is classified as a financial asset, and when the fair value is negative, it is classified as a financial liability.

(h) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories is based on the weighted-average method, and includes expenditure incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing condition. In the case of manufactured inventories and work in progress, cost includes an appropriate share of production overheads based on normal operating capacity.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(i) Biological assets

Biological assets are measured at fair value less costs to sell on initial recognition, with any change therein recognized in profit or loss at the end of each reporting period. Costs to sell include all costs that would be necessary to sell the assets, excluding finance costs and tax expenses. Biological asset does not have a quoted market price in an active market and for which alternative fair value measurements are determined to be clearly unreliable. In such case, the asset is measured at cost less accumulated depreciation and impairment losses.

(Continued)

(j) Investment in associates

Associates are those entities in which the Group has significant influence, but not control, or joint control over their financial and operating policies.

Investments in associates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in associates includes goodwill arising from the acquisition less any accumulated impairment losses.

The consolidated financial statements include the Group's share of the profit or loss and other comprehensive income of those associates, after adjustments to align the accounting policies with those of the Group, from the date on which significant influence commences until the date on which significant influence ceases. The Group recognizes any changes of its proportionate share in the investee within capital surplus, when an associate's equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual proportionate share.

Unrealized gains and losses resulting from transactions between the Group and an associate are recognized only to the extent of unrelated Group's interests in the associate. When the Group's share of losses of an associate equals or exceeds its interest in associates, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

The Group discontinues the use of the equity method and measures the retained interest at fair value from the date when its investment ceases to be an associate. The difference between the fair value of retained interest and proceeds from disposing, and the carrying amount of the investment at the date the equity method was discontinued is recognized in profit or loss. The Group accounts for all the amounts previously recognized in other comprehensive income in relation to that investment on the same basis as would have been required if the associates had directly disposed of the related assets or liabilities. If a gain or loss previously recognized in other comprehensive income would be reclassified to profit or loss (or retained earnings) on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) (or retained earnings) when the equity method is discontinued. If the Group's ownership interest in an associate is reduced while it continues to apply the equity method, the Group reclassifies the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to that reduction in ownership interest to profit or loss.

If an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the Group continues to apply the equity method without remeasuring the retained interest.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

When the Group subscribes to additional shares in an associate at a percentage different from its existing ownership percentage, the resulting carrying amount of the investment differs from the amount of the Group's proportionate interest in the net assets of the associate. The Group records such a difference as an adjustment to investments with the corresponding amount charged or credited to capital surplus. Moreover, a difference shall be debited to retained earnings when the balance of capital surplus resulting from investments accounted for using equity method is not sufficient to be written off. If the Group's ownership interest is reduced due to the additional subscription to the shares of associate, the proportionate amount of the gains or losses previously recognized in other comprehensive income in relation to that associate shall be reclassified to profit or loss on the same basis as would be required if the associate or jointly controlled entity had directly disposed of the related assets or liabilities.

(k) Investment property

Investment property is the property held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business use in the production or supply of goods or services or for administrative purposes. Investment property is measured at cost on initial recognition, and subsequently at cost, less accumulated depreciation and accumulated impairment losses. Depreciation expense is calculated based on the depreciation method, useful life, and residual value which are the same as those adopted for property, plant and equipment.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount) is recognized in profit or loss.

When the use of an investment property changes such that it is reclassified as property, plant and equipment, its carrying amount at the date of reclassification becomes its cost for subsequent accounting.

Rental income from investment property is recognized as other revenue on a straight-line basis over the term of the lease.

(l) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only when it is probable that the future economic benefits associated with the expenditure will flow to the Group.

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

1) Buildings and structures: 2 to 30 years

2) Machinery and equipment: 1 to 10 years

3) Factory and equipment: 1 to 15 years

4) Other equipment: 1 to 19 years

Depreciation methods, useful lives, and residual values are reviewed at each reporting date at lease and adjusted if appropriate.

(iv) Reclassification to investment property

A property is reclassified to investment property at its carrying amount when the use of the property changes from owner-occupied to investment property.

(m) Leases

(i) Identifying a lease

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

1) the contract involves the use of an identified asset – this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified; and

2) the Group has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and

3) the Group has the right to direct the use of the asset:

- The Group has the right to direct the use of the asset when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used.

- In rare cases where the decision on how, and for what purpose, the asset is used is predetermined, the Group has the right to direct the use of an asset if either:

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

— the Group has the right to operate the asset throughout the period of use, without the supplier having the right to change those operating instructions; or

— the Group designed the asset in a way that predetermines how and for what purpose the asset will be used throughout the period of use.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease component on the basis of their relative stand-alone prices. However, for the leases of land and buildings in which it is a lessee, the Group has elected not to separate non-lease components and account for the lease and non-lease components as a single lease component.

(ii) As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

1) fixed payments, including substantively fixed payments;

2) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;

3) amounts expected to be payable under a residual value guarantee; and

4) payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

1) there is a change in future lease payments arising from the change in an index or rate; or

2) there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or

3) there is a change in the assessment on whether it will have the option to exercise a purchase; or

4) there is a change in the assessment on lease term as to whether it will be extended or terminated; or

5) there is any lease modification.

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(iii) As a lessor

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Group applies IFRS15 to allocate the consideration in the contract.

The lessor recognizes a finance lease receivable at an amount equal to its net investment in the lease. Initial direct costs, such as lessors to negotiate and arrange a lease, are included in the measurement of the net investment. The lessor recognizes the interest income over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor' s net investment in the lease. The Group recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'rent income'.

(Continued)

(n) Intangible assets

(i) Goodwill

1) Initial Recognition

Goodwill arising from the acquisition has been recognized as intangible assets.

2) Subsequent measurement

Goodwill is measured at cost less accumulated impairment losses. Impairment loss on equity investment in investees accounted for under the equity method is not allocated to any asset, including goodwill that forms part of the carrying amount of such investment.

(ii) Other intangible assets

Subsequent to the initial recognition, an intangible asset is measured at cost, less any accumulated amortization and any accumulated impairment losses. Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognized in profit or loss as incurred.

(iii) Amortization

Except goodwill, amortizable amount is the cost of an asset less its residual values. Intangible assets are amortized from the date that they are available for use by using straight-line method, the estimated useful lives for the current and comparative periods are as follows:

1) Technical know-how: 2 to 17 years

2) Computer software and information systems: 1 to 10 years

3) Others: 1 to 2 years

The residual value, amortization period, and amortization method for an intangible asset with a finite useful life shall be reviewed at least annually at each fiscal year-end, and adjusted if appropriate.

(o) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories, deferred tax assets and biological assets measured at fair value less costs) to determine whether there is any indication of impairment. If any such indication exists, then the recoverable amount of the asset is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units (CGUs). Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

(Continued)

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(p) Revenue

(i) Revenue from contracts with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below:

1) Sale of goods

The Group recognizes revenue when control of the products has been transferred, when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

The Group often offers volume discounts to its customers based on aggregate sales of electronic components over a 12-month period. Revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate the discounts, using the expected value method, and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. A contract liability is recognized for expected volume discounts payable to customers in relation to sales made until the end of the reporting period. No element of financing is deemed present as the sales of electronic components are made with a credit term of 30 to 60 days, which is consistent with the market practice.

A receivable is recognized when the goods are delivered, as this is the point in time that the Group has a right to an amount of consideration that is unconditional.

2) Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money.

(q) Government grants

The Group recognizes an unconditional government grant related to research and development plan in profit or loss as other income when the grant becomes receivable. Grants that compensate the Group for expenses or losses incurred are recognized in profit or loss on a systematic basis in the periods in which the expenses or losses are recognized.

(r) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution pension plans are recognized as expense as the related services is provided.

(ii) Defined benefit plans

The Group’ s net obligation in respect of the defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a benefit to the Group, the recognized asset is limited to the total of the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

(Continued)

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(s) Share-based payment

The grant-date fair value of equity-settled share-based payment agreements granted to employees is generally recognized as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of award that meet the related service and non-market performance conditions at the vesting date.

For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between the expected and the actual outcomes.

The grant date of the share-based payment is the date the Group inform their employees about the exercise price and shares.

(t) Income taxes

Income taxes comprise both current taxes and deferred taxes. Except for expenses related to business combinations, or are recognized directly in equity or other comprehensive income, all current and deferred taxes shall be recognized in profit or loss.

The Group has determined that interest and penalties related to income taxes, including uncertain tax treatment, do not meet the definition of income taxes, and therefore accounted for them under IAS37.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes shall not be recognized for the below exceptions:

(i) temporary differences on the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profits (losses) at the time of the transaction;

(ii) temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and

(iii) taxable temporary differences arising on the initial recognition of goodwill.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes, if any.

Deferred tax assets and liabilities are offset if the following criteria are met:

(i) The entity has the legal right to settle tax assets and liabilities on a net basis; and

(ii) the taxing of deferred tax assets and liabilities fulfill one of the below scenarios:

1) levied by the same taxing authority; or

2) levied by different taxing authorities, but where each such authority intends to settle tax assets and liabilities (where such amounts are significant) on a net basis every year of the period of expected asset realization or debt liquidation, or where the timing of asset realization and debt liquidation is matched.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

(u) Business combinations

The Group treats the business combination as acquisition. Goodwill is measured at the consideration transferred less the amounts of the identifiable assets acquired and liabilities assumed (generally at fair value) at the acquisition date. If the amount of net assets acquired and liabilities assumed exceeds the acquisition price, the Group re-assesses whether it has correctly identified all of the assets acquired and liabilities assumed, and recognize a gain for the excess.

All transaction cost relating to a business combination are recognized immediately as expense when incurred, except for the issuance of debt or equity instruments.

The Group shall measure any non-controlling interests in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's identifiable net assets, if the non-controlling interests are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation. Other non-controlling interests are evaluated by their fair value or by another basis permitted by the IFRSs endorsed by the FSC.

In a business combination achieved in batches, the previously held equity interest in the acquiree at its acquisition-date fair value is remeasured, and the resulting gain or loss, if any, is recognized in profit or loss. In prior reporting periods, the Group may have recognized changes in the value of its equity interest in the acquire in other comprehensive income. If so, the amount that was recognized in other comprehensive income shall be recognized on the same basis as would be required if the Group had directly disposed the previously held equity interest. If the disposal of the equity interest required a reclassification to profit or loss, such an amount shall be reclassified to profit or loss.

(v) Earnings per share

The Group discloses the Company's basic and diluted earnings per share attributable to ordinary equity holders of the Company. The calculation of basic earnings per share is based on the profit attributable to the ordinary shareholder of the Company divided by weighted-average number of ordinary shares outstanding. The calculation of diluted earnings per share is based on the profit attributable to ordinary shareholders of the Company, divided by weighted-average number of ordinary shares outstanding after adjustment for the effects of all dilutive potential ordinary shares, such as employee remuneration and new restricted shares of employee.

(w) Operating segment

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance. Each operating segment consists of standalone financial information.

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty:

The preparation of the consolidated financial statements in conformity with the Regulations and the IFRSs endorsed by the FSC requires management to make judgments, estimates, and assumptions that affect the application of the accounting policies and the reported amount of assets, liabilities, income, and expenses. Actual results may differ from these estimates.

The management continues to monitor the accounting estimates and assumptions. The management recognizes any changes in accounting estimates during the period and the impact of those changes in accounting estimates in the following period.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements is as follows:

(a) Judgment of whether the Group has substantive control over its investee

The Group holds 49% of the outstanding voting shares of Rainbow Star Group Limited and is the single largest shareholder of the investee. The remaining 51% of Rainbow Star Group Limited's shares are concentrated within specific shareholders, and therefore the Group cannot obtain more than half of the total number of Rainbow Star Group Limited directors, and it also cannot obtain more than half of the voting rights at a shareholders' meeting. As a result, it is determined that the Group has significant influence but not control over Rainbow Star Group Limited.

The Group holds 20.80% of the outstanding voting shares of ITEQ Corporation (hereinafter referred to as "ITEQ") and is the single largest shareholder of the investee. Although the remaining 79.20% of ITEQ's shares are not concentrated within specific shareholders, the Group still cannot obtain more than half of the total number of ITEQ directors, and it also cannot obtain more than half of the voting rights at a shareholders' meeting. As a result, it is determined that the Group has significant influence but not control over ITEQ.

(b) Judgment of whether the Group has significant influence on its investee

The Group's 32.88% shares in NCF Fund II L.P. is deemed as a mutual fund. The Group does not act as the director and is not designed as the representative of those charged with the governance of NCF Fund II L.P. As a result, it is determined that the Group does not have significant influence on NCF Fund II L.P.

(c) Classification of lease

The factory lease agreements entered into by the Group were combined leases of land and buildings, recognized as operating leases. The proprietary of land was not transferred and the rental fee is increased to market rent at regular intervals. Also, the lessee does not participate in the residual value of the land and buildings. As a result, it was determined that the Group is responsible for all the risks and rewards of the land and buildings. Please refer to Note 6(t).

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next financial year is as follows. Those assumptions and estimation have been updated to reflect the impact of COVID-19 pandemic:

- Valuation of inventories

  As inventories are stated at the lower of cost or net realizable value, the Group estimates the net realizable value of inventories for obsolescence and unmarketable items at the end of the reporting period and then writes down the cost of inventories to net realizable value. The valuation of inventories is mainly determined based on assumptions as to future demand within a specific time horizon. Due to the rapid industrial transformation, there may be significant changes in the net realizable value of inventories. The further description of the valuation of inventories, please refer to Note 6(e).

The accounting policy and disclosure of the Group include that measuring the financial assets and financial liabilities at fair value. The Group uses external information to make the evaluation result agreed to market status and to confirm the data resource is independent reliable and consistent with other resource. The Group regularly revises the inputs and any essential adjustments on the fair value to confirm that evaluation results is reasonable. The Group regularly evaluates investment property using the evaluation methods and parametric assumptions announced by FSC.

When measuring the fair value of an asset or a liability, the Group usually uses market observable data. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

(a) Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

(b) Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

(c) Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

(a) Note 6(m)-Investment property.

(b) Note 6(ac)-Financial instruments.

(6) Explanation of significant accounts:

(a) Cash and cash equivalents

	December 31, 2021	December 31, 2020
Cash on hand	$ 321	348
Cash in bank	13,647,220	8,211,545
Time deposits	2,684,218	144,377
	$ 16,331,759	**8,356,270**

Refer to Note 6(ac) for currency risk of the financial assets and liabilities and the fair value sensitivity analysis of the Group.

(b) Financial instruments

(i) Financial assets and liabilities at fair value through profit or loss:

		December 31, 2021	December 31, 2020
Mandatorily measured at financial assets at fair value through profit or loss:			
Non-derivative financial assets			
Stock listed on domestic markets	$	18,541	10,239
Non-public stocks (Note)		380,417	-
Money market funds		43,334	745,799
Private fund (Note)		1,442,016	814,065
Total	**$**	**1,884,308**	**1,570,103**
Current	$	61,875	756,038
Non-current		1,822,433	814,065
	$	**1,884,308**	**1,570,103**

Note: As of December 31, 2021 and 2020, part of the private fund and non-public stocks were during the lock-up period.

		December 31, 2021	December 31, 2020
Mandatorily measured at current financial liabilities at fair value through profit or loss			
Convertible bonds with embedded derivatives	**$**	**180,497**	**-**

The derivative financial instruments arose from the issuance of overseas convertible bonds of the Group disclosed in Note 6(r).

The Group holds derivative financial instruments to hedge certain foreign exchange the Group is exposed to, arising from its operating activities. For the year ended December 31, 2020, the gains on settlement, amounting to $4,259 thousand, were recognized as other gains and losses. There was no such transaction for the year ended December 31, 2021.

Refer to Note 6(ab) for the amount of re-measurement at fair value recognized in profit or loss.

(ii) Non-current financial assets at fair value through other comprehensive income (FVOCI):

	December 31, 2021	December 31, 2020
Stocks listed on domestic markets	$ 124,844	4,821,035
Stocks listed on US markets	1,381,391	935,248
Non-public stocks	680,342	963,298
	$ 2,186,577	6,719,581

The Group decided to hold these equity instruments, which are not held for trading, at fair value through other comprehensive income.

For the years ended December 31, 2021 and 2020, the group received dividend income $45,244 thousand and $177,102 thousand, respectively, of the equity investment designated at fair value through other comprehensive income.

For the year ended December 31, 2021, due to the proportion of investment portfolio, the Group disposed the equity investments designated at fair value through other comprehensive income, with a fair value of $313,827 thousand; upon derecognition, the gains on disposal, accumulated in other equity, amounting to $162,636 thousand was transferred to retained earnings.

For the year ended December 31, 2021, due to operating strategy, the Group reclassified equity investments designated at fair value through other comprehensive income into investments accounted for using equity method. Please refer to Note 6(g) for related information.

For the year ended December 31, 2020, due to the redemption of preferred shares and the proportion of investment portfolio, the Group disposed the equity investments designated at fair value through other comprehensive income, with a fair value of $75,188 thousand; upon derecognition, the gains on disposal, accumulated in other equity, amounting to $50,067 thousand was transferred to retained earnings.

(iii) Sensitivity analysis in the equity price risk:

If the equity price changes, the impact to comprehensive income, using the sensitivity analysis based on the same variables except for the price index for both periods, will be as follows:

	2021		2020	
Prices of securities at the reporting date	**After-tax other comprehensive income**	**After-tax profit (loss)**	**After-tax other comprehensive income**	**After-tax profit (loss)**
Increasing 3%	$ 65,597	11,969	201,587	307
Decreasing 3%	$ (65,597)	(11,969)	(201,587)	(307)

(iv) As of December 31, 2021 and 2020, the financial assets were not pledged. For information on the Group's credit risk and fair value information was disclosed in Note 6(ac).

(c) Notes and accounts receivable, net

	December 31, 2021	December 31, 2020
Notes receivable	$ 1,053	632
Accounts receivable	2,717,312	2,037,018
Less: loss allowance	(805)	(148)
	$ 2,717,560	2,037,502

The Group applies the simplified approach to provide for its loss allowance used for expected credit losses, which permit the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, notes and accounts receivable have been grouped based on shared credit risk characteristics and days past due, as well as incorporate forward looking information.

The loss allowance provision was determined as follows:

(i) The segment of foundry and agriculture technology:

	December 31, 2021		
	Gross carrying amount	Weighted-average expected loss rate	Lifetime expected credit loss allowance
Not past due	$ 2,556,855	0%	-
Past due 1~60 days	154,719	0%	-
Past due 61~120 days	-	0%	-
Past due 121~180 days	-	0%~1.67%	-
Past due more than 181 days	-	100%	-
	$ 2,711,574		-

	December 31, 2020		
	Gross carrying amount	Weighted-average expected loss rate	Lifetime expected credit loss allowance
Not past due	$ 1,936,837	0%	-
Past due 1~60 days	97,116	0%	-
Past due 61~120 days	-	0%	-
Past due 121~180 days	-	1.67%~5.43%	-
Past due more than 181 days	-	100%	-
	$ 2,033,953		-

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

(ii) The segment of gene chip testing service:

	December 31, 2021		
	Gross carrying amount	Weighted-average expected loss rate	Lifetime expected credit loss allowance
Not past due	$ 4,927	0%~29.86%	23
Past due 1~60 days	1,060	0%~36.91%	10
Past due 61~120 days	27	0%~49.81%	-
Past due 121~180 days	11	0%~61.11%	6
Past due more than 181 days	766	100%	766
	$ 6,791		**805**

	December 31, 2020		
	Gross carrying amount	Weighted-average expected loss rate	Lifetime expected credit loss allowance
Not past due	$ 2,363	0.52%~9.40%	25
Past due 1~60 days	1,152	4.26%~48.02%	50
Past due 61~120 days	100	8.58%~60.93%	9
Past due 121~180 days	82	40.61%~77.78%	64
Past due more than 181 days	-	100%	-
	$ 3,697		**148**

The movements of loss allowance were as follows:

	2021	2020
Beginning balance	$ 148	4,344
Impairment loss recognized	694	23
Amounts written off	(37)	(4,263)
Effect of changes in foreign exchange rates	-	44
Ending balance	**$ 805**	**148**

As of December 31, 2021 and 2020, the notes and accounts receivable were not discounted nor pledged.

(d) Other receivables (recognized as other current assets)

	December 31, 2021	December 31, 2020
Other receivables	$ 23,700	72,308
Less: loss allowance	-	-
	$ **23,700**	**72,308**

As of December 31, 2021 and 2020, other receivables were not past due nor impaired.

For information on the Group's credit risk was disclosed in Note 6(ac).

(e) Inventories

	December 31, 2021	December 31, 2020
Raw materials, supplies and spare parts	$ 4,352,874	3,429,039
Work in process	1,291,563	1,288,669
Finished goods	1,026,300	780,895
	$ **6,670,737**	**5,498,603**

Except for cost of goods sold and inventories recognized as expenses, the remaining gains or losses which were recognized as operating cost or deduction of operating cost were as follows:

	2021	2020
Losses on valuation of inventories and obsolescence	$ **87,999**	**57,010**
Revenue from sale of scraps	$ **(52,200)**	**(27,405)**
Gains on physical inventory count	$ **(59)**	**(40)**

As of December 31, 2021 and 2020, the inventories were not pledged.

(f) Biological assets

(i) List of biological assets:

	December 31, 2021	December 31, 2020
Consumable biological assets	$ **138,494**	**283,273**
Bearer biological assets	$ **389,952**	**281,943**

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

(ii) Movements in biological assets:

		2021	2020
Beginning balance	$	565,216	31,989
Increase due to purchase		211,872	578,395
Input costs		666,872	378,314
Depreciation expenses		(61,141)	(6,495)
Decrease due to sales and disposals		(858,779)	(412,026)
Changes in fair value less costs to sell due to price changes		7,506	(21,326)
Effect of changes in foreign exchange rates		(3,100)	16,365
Ending balance	$	**528,446**	**565,216**
Current	$	138,494	283,273
Non-current		389,952	281,943
	$	**528,446**	**565,216**

For the years ended December 31, 2021 and 2020, the gains and losses of $7,506 thousand and $(21,326) thousand, respectively, were recognized as operating costs of the consolidated statement of comprehensive income as a result of the remeasurement of biological assets at the higher of its carrying amount or fair value less costs to sell.

(iii) The numbers of the Group's biological assets were as follows:

Unit: head

	December 31, 2021	December 31, 2020
Farrows, hogs and breeders	**46,684**	**28,753**

(iv) Fair value

The Group uses valuation method to measure its biological assets to determine the fair value of the hogs and the farrows (which are required to reach a certain weight), less, cost to sell at the end of the reporting period. If biological asset does not have a quoted market price in an active market, the asset is measured at cost less accumulated depreciation and impairment losses.

Costs of the biological assets include all of the costs within the growth cycle, such as the cost of new-born farrows, the feed and the raising farm. The cost of the productive biological assets shall be depreciated on a straight-line basis over the producible term. The amortized term is within 36 months. For the years ended December 31, 2021 and 2020, the depreciation expenses of biological assets (which will be converted into its breeding biological assets) were $61,141 thousand and $6,495 thousand, respectively.

(Continued)

(v) The Group is exposed to the following risks relating to its hog farming:

1) Regulations and environmental risks

The Group is subject to laws and regulations in various countries in which it operates. The Group has established environmental policies and procedures aimed at complying with the local environment and other laws. Management performs regular reviews to identify environmental risks and to ensure that systems in place are adequate to manage those risks.

2) Supply and demand risks

The Group is exposed to risks arising from fluctuations in the price and sales volume of hogs. When possible, the Group manages this risk by aligning its farming volume with market supply and demand. Management performs regular industry trend analyses to ensure that the Group's pricing structure is in line with the market.

3) Climate and other risks

The Group's hog farming is exposed to the risk of damage from climate change, diseases, and other natural forces. The Group has extensive processes in place aimed at monitoring and mitigating those risks, including regular pig health inspections and industry pest and disease surveys.

(vi) As of December 31, 2021 and 2020, the biological assets were not pledged.

(vii) Fair value valuation technique of biological assets used inputs that were categorized in level 3. Please refer to the table above regarding the movement of biological assets for a reconciliation beginning from the opening balance to the closing balance for level 3 fair value. In this period the fair value hierarchy of the biological assets were not transferred into or out of level 3. The valuation technique and significant unobservable inputs were as follows:

Items	Fair value valuation technique	Significant unobservable inputs	Relationship between significant unobservable inputs and fair value
Hogs in China	Price comparison: Estimated value of price comparison is compared with the biological assets of different type, quality and kinds, etc.	Evaluate the quality	Evaluate the changes in fair value, according to the quality of biological assets.

(g) Investments accounted for using equity method

The components of investments accounted for using the equity method at the reporting date were as follows:

	December 31, 2021	December 31, 2020
Associates	$ 10,405,398	841,825

(i) Associates

Associates which are material to the Group consisted of the followings:

Name of Associates	Main Businesses and Products	Main Operating Location/ Registered Country of the Company	Proportion of Shareholding and Voting Rights	
			December 31, 2021	December 31, 2020
Jiangsu CM/Chainwin Agriculture Development Co., Ltd. (abbrev. Jiangsu CM/Chainwin)	Developing hog farming technology and trading	China	49 %	49 %
ITEQ Corporation (abbrev. ITEQ)	Manufactures and sells mass lamination boards, copper-clad laminates, prepreg, and electronic components	Taiwan	20.80 %	-

The fair value of significant associate listed on the Taiwan Stock Exchange Corporation (TWSE) which is material to the Group is as follows:

	December 31, 2021
ITEQ	$ 11,309,197

The Group has significant influence over ITEQ after acquiring two seats of the Board of Directors on July 2, 2021. Therefore, the original account under fair value through other comprehensive income financial assets amounting to $7,275,063 thousand, was removed and reclassified into investment accounted for using equity method based on the fair value. The amount of profit related to the investment that was previously recognized in other comprehensive income of $2,896,840 thousand that would not be reclassified to profit or loss was reclassified to retained earnings. In the second half of 2021, the Group subscribed 24,548 thousand shares of cash capital increase amounting to $3,191,295 thousand and purchased 3,314 thousand shares amounting to $427,768 thousand from open market. The amount of investment cost over net equity amounting to $1,288,576 thousand was recognized as a deduction of retained earnings. Due to the aforementioned transactions, the shareholding percentage has increased from 15.55% to 20.80%.

(Continued)

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

In the fourth quarter of 2020, the Group subscribed the new shares contributed by Jiangsu CM/Chainwin for $170,913 thousand in cash. There was no such transaction for the year ended December, 31, 2021.

The following consolidated financial information of significant associates has been adjusted according to individually prepared IFRS financial statements of these associates.

The financial information of Jiangsu CM/Chainwin:

	December 31, 2021	December 31, 2020
Current assets	$ 231,717	327,458
Non-current assets	1,304,478	1,532,346
Current liabilities	(127,658)	(222,515)
Non-current liabilities	(31,592)	(30,367)
Net assets	**$ 1,376,945**	**1,606,922**

	2021	2020
Operating revenue	**$ 371,177**	**553,184**
(Losses) profit	$ (217,715)	259,706
Other comprehensive income	-	-
Total comprehensive income	**$ (217,715)**	**259,706**

	2021	2020
Shares of net assets of Jiangsu CM/Chainwin at the beginning	$ 785,949	472,528
(Losses) profit attributable to the Group	(106,680)	127,256
Exchange differences on translation of foreign financial statements attributable to the Group	13,844	45,865
Shares of net assets of Jiangsu CM/Chainwin at the end	693,113	645,649
Add: Cash subscription	-	170,913
Effect of changes in foreign exchange rates	(19,811)	(30,613)
Carrying amount of equity of Jiangsu CM/Chainwin attributable to the Group	**$ 673,302**	**785,949**

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

The financial information of ITEQ:

	December 31, 2021
Current assets	$ 24,375,370
Non-current assets	11,861,917
Current liabilities	(14,264,806)
Non-current liabilities	(657,743)
Net assets	**$ 21,314,738**

	2021
Operating revenue	**$ 32,524,688**
Profit	$ 3,144,803

Deduction in retained earnings from disproportionate capital increase	(1,288,596)
Dividend received from associates	(258,899)
Changes in capital surplus of associates	510
Carrying amount of equity of ITEQ attributable to the Group	9,678,934
Less: Goodwill	(5,245,224)
Shares of net assets of ITEQ at the end	**$ 4,433,710**

Summary of financial information for the individually insignificant investments in associates accounted for using equity method were as follows. The aforementioned financial information was included in the consolidated financial statements of the Group:

	December 31, 2021	December 31, 2020
Total equity of the individually insignificant investments in associates	**$ 53,162**	**55,876**

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

		2021	2020
Attributable to the Group:			
Losses	$	(1,158)	(1,226)
Other comprehensive income		-	-
Total comprehensive income	**$**	**(1,158)**	**(1,226)**

(ii) Pledge to secure

As of December 31, 2021 and 2020, the investments accounted for using equity method were not pledged.

(h) Business combination

In order to integrate industrial resources, expand operating scale, and enhance market competitiveness, the Company's subsidiary, Phalanx Biotech Group, Inc. (abbrev. PBL) conducted share swap with Guzip Biomarkers Corporation (abbrev. Guzip) on December 30, 2021. The share swap ratio of PLB to Guzip is 1 to 2. PLB would obtain 100% of shares of Guzip. Guzip is mainly engaged in developing and selling of diagnostic tool for endometrial cancer.

If the acquisition had occurred on January 1, 2021, the management estimates that the consolidated revenue would have been $4,955 thousand and the consolidated net losses would have been $8,403 thousand. The abovementioned influences do not include adjustments on the fair value.

The acquisition-date fair value of major class of consideration transferred was as follows:

(i) Consideration transferred

PBL obtain 100% of shares of Guzip through conducting share swap with Guzip.

Ordinary shares with fair value of $81,727 thousand were issued as the consideration transferred for the share swap with Guzip, based on the income approach on June 30, 2021. The fair value measurement for the controlling interests has been categorized as a Level 3 fair value based on the inputs to the valuation technique used. The key assumptions are as follows:

1) The discount rate is based on the weighted-average cost of capital that computed by PBL and the different capital structure of the comparable companies and corresponded by the market value;

2) Ten years of cash flows were included in the discounted cash flow model. Budgeted annual earnings after tax, before interest, depreciation and amortization were based on expectations of future outcomes taking into account past experience, adjusted for the anticipated revenue growth.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

(ii) The following table summarizes the recognized amounts of assets acquired and liabilities assumed at the acquisition date:

Cash and cash equivalents	$	458
Notes and accounts receivable		55
Other current assets		811
Property, plant and equipment (Note 6(k))		34
Intangible assets (Note 6(n))		39,534
Other non-current assets		2,692
Other payables		(165)
Other current liabilities		(9)
Fair value of identifiable net assets acquired	**$**	**43,410**

(iii) Goodwill arising from the acquisition has been recognized as follows:

Consideration transferred	$	81,727
Less: Fair value of identifiable net assets		(43,410)
Goodwill (Note 6(n))	**$**	**38,317**

Goodwill mainly attributed to the know-how of Guzip.

(i) Changes in a parent's ownership interest in a subsidiary

(i) Chainwin Cayman

On May 6, 2021, June 16 and November 10, 2020, the Group subscribed the new shares contributed by Chainwin Cayman for $2,764,000 thousand, $1,481,500 thousand and $1,440,500 thousand in cash, respectively. Therefore, for the years ended December 31, 2021 and 2020, the Group decreased its ownership from 81.69% to 81.23% and 96.30% to 81.69%, respectively.

Based on the aforementioned transactions, the effects of the changes in shareholdings were as follows:

		2021	2020
Carrying amount of interest on acquisition	$	2,769,313	2,991,410
Consideration paid		(2,764,000)	(2,922,000)
Capital surplus changes in ownership interests in subsidiaries	**$**	**5,313**	**69,410**

(ii) Phalanx Biotech

On July 8, 2021, the Group subscribed the new shares contributed by Phalanx Biotech for $475,018 thousand in cash, and Phalanx Biotech acquired Guzip Biomarkers Corporation by issuing ordinary shares. Therefore, for the year ended December 31, 2021, the ownership increased from 58.87% to 75.21%. There was no such transaction for the year ended December 31, 2020.

Based on the aforementioned transactions, the effects of the changes in shareholding were as follows:

		2021
Carrying amount of interest on acquisition	$	460,516
Consideration paid		(475,018)
Capital surplus and retained earnings changes in ownership interests in subsidiaries	$	**(14,502)**

(j) Material non-controlling interests of subsidiaries

The material non-controlling interests of subsidiaries were as follows:

		Percentage of non-controlling interests	
Subsidiaries	**Registration**	**December 31, 2021**	**December 31, 2020**
Chainwin Cayman	Cayman Islands	18.77 %	18.31 %

The following information of the aforementioned subsidiaries have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers. Included in the information are the fair value adjustment made during the acquisition and relevant difference in accounting principles between the Group as at the acquisition date. Intragroup transactions were not eliminated in this information.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

Note 1: Inventories, prepayments for business facilities, investment property, other non-current assets, and capitalized right-of-use depreciation expenses were reclassified as property, plant and equipment.

Note 2: Inventories, prepayments for business facilities, and capitalized right-of-use depreciation expenses were reclassified as property, plant and equipment.

Note 3: Investment property was reclassified as property, plant and equipment.

(i) Pledge to secure

As of December 31, 2021 and 2020, the property, plant and equipment were subject to a registered debenture to secured bank loans and line of credit, the collateral for these long-term borrowings was disclosed in Note 8.

(ii) Property, plant and equipment under construction

The Group rented some pieces of land and entered into different agreements for the construction of its new factories on the said lands. For the year ended December 31, 2021, the Group has constructed factories amounting to $2,412,337 thousand, and has recognized as construction in progress. As of December 31, 2021, the total amount of the construction is $8,375,525 thousand, and is recognized as construction in progress.

(iii) For the years ended December 31, 2021 and 2020, capitalized interest expenses amounted to $45,237 thousand and $32,221 thousand, respectively. The annual interest rates at which these interest expenses were capitalized ranged from 0.48%~0.72% and 0.60%~2.28%, respectively.

(l) Right-of-use assets

The movements in right-of-use assets were as follows:

	Land	Buildings and structures	Other equipment	Total

When measuring the fair value of its investment property, the Group considered the present value of net cash flows to be generated from leasing the property. The expected net cash flows were discounted using the yield to reflect its specified inherit risk on the net cash flows. The inputs to the valuation technique used for measuring fair value were categorized as a Level 2 fair value. As of December 31, 2021 and 2020, the yield applied to the net annual rentals to determine fair value of property for which current prices in an active market were unavailable, was as follows:

Location	December 31, 2021	December 31, 2020
Hsinchu	0.42%	0.36%
Taoyuan	-%	0.53%

As of December 31, 2020, investment property was subject to a registered debenture to secured bank loans and line of credit, the collateral for these long-term borrowings was disclosed in Note 8. As of December 31, 2021, the investment property was not pledged.

(ii) Amortization expense recognized in profit or loss

For the years ended December 31, 2021 and 2020, the amortization expenses of intangible assets were as follows:

		2021	2020
Operating costs	$	34,917	25,151
Operating expenses		97,452	83,730
	$	**132,369**	**108,881**

(Continued)

(iii) Impairment testing for goodwill

1) Chainwin Cayman

The goodwill of $132,278 thousand was derived from the acquisition of and the control over Chainwin Cayman by the Group on August 19, 2016. The goodwill was mainly attributed to the profitability of the hog farming in mainland China. Chainwin Cayman is regarded as a cash-generating units (the “ CGU”) to generate cash inflows that are independent of those from others. Therefore, goodwill is tested for impairment by comparing the recoverable amount of Chainwin Cayman with its carrying amount to determine whether an impairment loss should be recognized.

Also, the Group estimated its operating revenue for certain periods based on the purchase price allocation valuation report issued by the specialist, who was entrusted by the Group. The preceding estimation was analyzed based on the financial forecasts from 2016 to 2021. The construction of certain factory farms of Chainwin Cayman had been delayed, resulting in failure to increase the scale on farm raising. Therefore, the actual operating revenue for the years of 2021 and 2020 decreased by 89% and 90%, respectively, which were lower than the original forecast.

On December 31, 2021 and 2020, the recoverable amount determined by the value-in-use for the cash-generating unit is higher than the carrying amount. Therefore, there was no impairment loss should be recognized.

The total amount of goodwill has been allocated to the agriculture technology for the Group’ s impairment testing purpose. The CGU are used as the minimum level for investment return of goodwill supervised by the management.

The Group’s goodwill has been tested for impairment at the end of the annual reporting period and the recoverable amount is determined based on the value-in-use. The key assumption used in the estimation of the value-in-use of the CGU were as follows:

a) The future cash flow was based on expectations of future operations, taking into account past experience, adjusted for the anticipated revenue growth. Revenue growth was projected taking into account the average growth levels experienced over the past year, and the estimated sales volume and price growth for the next five years. The assumptions were in line with the information obtained from external local market who publish a statistical analysis on market trends.

b) The assumption on before-tax discount rate is based on the weighted average cost of capital. As of December 31, 2021 and 2020, the applied before-tax discount rate of the recoverable amount of the units were 7.52% and 7.49%, respectively.

2) PBL

The goodwill of $318,763 thousand was derived from the Group became the largest shareholder of and obtained control over PBL on July 12, 2018. The goodwill was mainly attributed to the profitability in microarray services market and the know-how of PBL work force. PBL is regarded as a CGU to generate cash inflows that are independent of those from others. Therefore, goodwill is tested for impairment by comparing the recoverable amount of PBL with its carrying amount to determine whether an impairment loss should be recognized.

Also, the Group estimated its operating revenue for certain periods based on the purchase price allocation valuation report issued by the specialist, who was entrusted by the Group. The preceding estimation was analyzed based on the financial forecasts from 2018 to 2025. The market share of PBL’s services was not unproductive and the technology transfer cases of PBL did not finished on time; therefore, the actual operating revenue for the years of 2021 and 2020 decreased by 84% and 82%, respectively, which were lower than the original forecast.

On December 31, 2021, the recoverable amount determined by the value-in-use for the cash-generating unit is higher than the carrying amount. Therefore, there was no impairment loss should be recognized. And an impairment loss of goodwill of $159,382 thousand was recognized in 2020.

The total amount of goodwill has been allocated to the gene chip testing service for the Group’s impairment testing purpose. The CGU are used as the minimum level for investment return of goodwill supervised by the management.

The Group’s goodwill has been tested for impairment at the end of the annual reporting period and the recoverable amount is determined based on the value-in-use. The key assumption used in the estimation of the value-in-use of the CGU were as follows:

a) The future cash flow was based on expectations of future operations, taking into account past experience, adjusted for the anticipated revenue growth. Revenue growth was projected taking into account the average growth levels experienced over the past year, and the estimated sales volume and price growth for the next 5 years.

b) The assumption on before-tax discount rate is based on the weighted average cost of capital. As of December 31, 2021 and 2020, the applied before-tax discount rate of the recoverable amount of the units were 12.93% and 8.16%, respectively.

3) Guzip

The goodwill of $38,317 thousand was derived from the Group's acquisition of 100% shares of Guzip through share swap. The goodwill was mainly attributed to the know-how of Guzip work force. The Group obtained Guzip on December 30, 2021. Therefore, the Group no longer determined whether an impairment loss should be recognized.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

Also, the Group estimated its operating revenue for certain periods based on the purchase price allocation valuation report issued by the specialist, who was entrusted by the Group. The preceding estimation was analyzed based on the financial forecasts from 2022 to 2031.

4) Pledge to secure

As of December 31, 2021 and 2020, the intangible assets were not pledged.

(o) Other current assets and other non-current assets

	December 31, 2021	December 31, 2020
Unsecured short-term borrowings	**$ -**	**-**
Unused bank credit lines for short-term borrowings	**$ 1,010,000**	**802,430**
Unused bank credit lines for short-term and long-term borrowings	**$ 3,568,680**	**3,450,712**

(q) Long-term borrowings

	December 31, 2021	December 31, 2020
Secured long-term borrowings (in TWD)	$ 750,000	750,000
Secured long-term syndicated borrowings (in USD)	5,522,160	3,659,680
Unsecured long-term borrowings (in TWD)	9,720,660	7,008,940
Less: long-term liabilities, current portion	-	-
Total	**$ 15,992,820**	**11,418,620**
Unused bank credit lines for long-term borrowings	**$ 8,922,568**	**9,814,928**
Annual interest rate	**0.25%~0.98%**	**0.25%~1.00%**
Expiry date	**2023/12/15~2025/8/16**	**2022/3/15~2025/8/16**

(Continued)

As of December 31, 2021, the remaining balances of the borrowing due were as follows:

Year due	Amount
January 1, 2023~December 31, 2023	$ 2,753,310
January 1, 2024~December 31, 2024	6,412,080
January 1, 2025~and after	6,827,430
	$ 15,992,820

(i) The unused bank credit lines for short-term and long-term borrowings at the reporting date were disclosed in Note 6(p).

(ii) The collateral for these long-term borrowings were disclosed in Note 8.

(iii) In June 2019, the Group entered into a three-year syndicated loan agreement with Far Eastern International Bank and other four banks. The total credit facility under this loan agreement is US$200,000 thousand.

The related financial covenants and restrictions for the syndicated loans mentioned above were as follows:

1) At the end of reporting period, current ratio (current assets / current liabilities): shall not be lower than 100%;

2) Interest coverage ratio [(profit before tax + depreciation + amortization + interest expense) / interest expense)]: shall not be lower than 100%; and

3) Tangible net assets value (equity － intangible assets): shall not be lower than NT$15,000,000 thousand.

After the guarantor signs the loan agreement, the aforementioned financial ratio and criteria will be reviewed semi-annually, which are based on the year-end consolidated financial statements audited by the Certified Public Accountants (CPAs) that are approved by the leading bank, as well as the semi-annual consolidated financial statements reviewed by the CPAs.

For the years ended December 31, 2021 and 2020, the Group were in compliance with the above financial covenants and restrictions.

(iv) In December 2021, the Group entered into a three-year syndicated loan agreement with Far Eastern International Bank and other ten banks. The total credit facility under this loan agreement is US$300,000 thousand. The loans from the initial withdrawal should be first paid off the outstanding amount of syndicated loan agreement in June 2019.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

The related financial covenants and restrictions for the syndicated loans mentioned above were as follows:

1) At the end of reporting period, current ratio (current assets / current liabilities): shall not lower than 100%;

2) Interest coverage ratio [(profit before tax + depreciation + amortization + interest expense) / interest expense)]: shall not be lower than 100%; and

3) Tangible net assets value (equity— intangible assets): hall not be lower than NT$20,000,000 thousand.

After the guarantor signs the loan agreement, the aforementioned financial ratio and criteria will be reviewed semi-annually, which are based on the year-end consolidated financial statements audited by the Certified Public Accountants (CPAs) that are approved by the leading bank, as well as the semi-annual consolidated financial statements reviewed by the CPAs.

For the year ended December 31, 2021, the Group were in compliance with the above financial covenants and restrictions.

(r) Bonds payable

The details of bonds payable were as follows:

	December 31, 2021	December 31, 2020
Overseas convertible bonds	$ 13,992,000	-
Less: Unamortized discounted bonds payable	(705,361)	-
Current portion	-	-
Total	**$ 13,286,639**	**-**

Proceeds from issuance (less transaction cost amounted to $89,226 thousand)	$ 13,902,774
Equity components (less transaction cost amortized to equity component of $4,147 thousand)	(639,583)
Embedded derivatives instruments—put/ call options	(139,920)
Liability components at the issuance date (less transaction cost allocated to liability component of $85,079 thousand)	13,123,271
Interest expense at an effective interest rate of 1.28%	163,368
Liability components at December 31, 2021	**$ 13,286,639**

(Continued)

The Company resolved to issue the first unsecured overseas convertible bonds, as proposed in the Board of Directors meeting held on November 27, 2020, which had been approved by the Financial Supervisory Commission with approval No.1090377907 on December 25, 2020 and been issued on the Singapore Exchange Securities Trading Limited on January 14, 2021. The Company issued the 5 years unsecured convertible bond, amounting to US$500,000 thousand without coupon rate, with the maturity dates on January 14, 2026.

Unless previously redeemed, repurchased, and cancelled or converted, regulations and except during the closed period, the bonds may be converted into the Company's common shares pursuant to the applicable laws and regulations and the indenture at any time starting from the next day immediately after three months from the issue date to (1) the 10 day prior to the maturity date or (2) the 5 business day prior to the applicable redemption date on which a bondholder exercises its put right or the applicable date (other than the maturity date) on which the Company exercises its redemption right.

The conversion price was 140% of the closing price of the Company's common share on the Taipei Exchange on the pricing date, which was NT$497. The number of common share to be delivered upon conversion of any bond will be determined with the principal amount of the bonds multiplied by the fixed exchange rate, which is NT$27.984 to US$1, which as determined on the pricing date and divided by the conversion price in effect on the date of conversion. After the issuance of the bonds, the conversion price shall be adjusted in accordance with the relevant anti-dilution provisions of the indenture. As of December 31, 2021, the conversion price was adjusted to NT$483.16 per share.

The above-mentioned convertible bonds included liabilities and equity components. The equity component was accounted under the capital surplus-stock option. The effective interest rate originally recognized for the liability component was 1.28%.

(s) Lease liabilities

The carrying amounts of lease liabilities were as follow:

	December 31, 2021	December 31, 2020
Current	$ 122,882	84,993
Non-current	$ 1,034,327	614,891

For the maturity analysis, please refer to Note 6(ac).

The amounts recognized in profit or loss were as follows:

	2021	2020
Interest expenses on lease liabilities	$ 25,989	12,973
Expenses relating to short-term leases	$ 10,236	13,729
Expenses relating to leases of low-value assets, excluding short-term leases of low-value assets	$ 1,477	1,309

The amounts recognized in the statement of cash flows for the Group was as follows:

	2021	2020
Total cash outflow for leases	$ **201,175**	**133,435**

(i) Real estate and buildings leases

The Group leases land and buildings and structures for its factories and staff dormitories. The leases of them typically run for a period of 2 to 50 years.

(ii) Other leases

The Group leases printer and transportation equipment, with lease terms of 2 to 10 years.

(iii) Others

Parts of the leases of transportation equipment, machinery and equipment, office and staff dormitories are with contract terms of less than one year. These leases are short-term. The Group has elected not to recognize right-of-use assets and lease liabilities for these leases. Also, some leases contain cancellation options exercisable by the Group. In which lease is not reasonably certain to use an optional extended lease term, payments associated with the optional period are not included within lease liabilities.

(t) Operating lease

The Group leased its investment property under operating lease, which was disclosed in Note 6(m).

For the years ended December 31, 2021 and 2020, the rental income amounted to $35,180 thousand and $73,849 thousand, respectively.

(u) Employee benefits

(i) Defined benefit plans

Reconciliation of defined benefit obligation at present value and plan asset at fair value were as follows:

	December 31, 2021	December 31, 2020
Present value of the defined benefit obligations	$ 162,260	158,573
Fair value of plan assets	(49,234)	(47,690)
Net defined benefit liabilities (Note)	$ **113,026**	**110,883**

Note: Recognized liabilities for defined benefit obligations were recognized as other non-current liabilities.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

The Group makes defined benefit plan contributions to the pension fund account in the Bank of Taiwan that provides pensions for employees upon retirement. Plans (covered by the Labor Standards Law) entitle a retired employee to receive an annual payment based on years of service and average salary prior to six months of retirement.

1) Composition of plan assets

The Group set aside pension funds in accordance with the legislation from the Ministry of Labor and managed by the Bureau of Labor Founds. The annual budget for the allocation of the minimum income cannot be lower than the income calculated based on the interest rate of the banks' two-year time deposit in accordance with the legislation "Management and Utilization of the Labor Pension Funds".

The Group's labor pension reserve account balance in the Bank of Taiwan amounted to $49,234 thousand as of December 31, 2021. The utilization of the labor pension fund assets includes the asset allocation and the yield of the fund. Please refer to the website of Bureau of Labor Founds, Ministry of Labor.

2) The movements in present value of the defined benefit obligations

For the years ended December 31, 2021 and 2020, movements in the present value of the defined benefit obligations for the Group were as follows:

		2021	2020
Defined benefit obligations at the beginning	$	158,573	144,155
Current service costs and interest cost		2,093	2,367
Remeasurements of the net defined benefit liability (asset):			
—Actuarial (gains) losses arising from demographics assumption		4,123	-
—Actuarial (gains) losses arising from financial assumption		-	6,498
—Experience adjustments		(2,529)	5,553
Defined benefit obligations at the end	**$**	**162,260**	**158,573**

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

3) The movements in fair value of the defined benefit plan assets

For the years ended December 31, 2021 and 2020, movements in the fair value of the plan assets were as follows:

	2021	2020
Fair value of plan assets at the beginning	$ 47,690	45,194
Interest revenue	352	501
Remeasurements of the net defined benefit liability (asset):		
－Return on plan assets (excluding the interest revenue)	495	1,315
Amounts contributed to plan	697	680
Fair value of plan assets at the end	**$ 49,234**	**47,690**

4) The movement in effect of plan asset ceiling

For the years ended December 31, 2021 and 2020, there were no changes in the effect of plan asset ceiling.

5) The expenses recognized in profit or losses

For the years ended December 31, 2021 and 2020, the expenses recognized in profit or losses for the Group were as follows:

	2021	2020
Current service costs	$ 940	793
Net interest expense of net defined benefit liabilities (assets)	801	1,073
	$ 1,741	**1,866**

	2021	2020
Administrative expenses	**$ 1,741**	**1,866**

6) The remeasurements of the net defined benefit liabilities (assets) recognized in other comprehensive income

For the years ended December 31, 2021 and 2020, the remeasurements of the net defined benefit liabilities (assets) recognized in other comprehensive income were as follows:

	2021	2020
Balance at the beginning	$ 72,961	62,225
Recognized in the current period	1,099	10,736
Balance at the end	**$ 74,060**	**72,961**

7) Actuarial assumptions

At the end of the reporting date, the principal actuarial assumptions were as follows:

	December 31, 2021	December 31, 2020
Discount rate	0.750 %	0.750 %
Future salary rate increases	4.500 %	4.500 %

The Group expects to make contributions of $150 thousand to the defined benefit plans in the next year starting from December 31, 2021.

For 2021, the weighted average duration of the defined benefit plans is 15.29 years.

8) Sensitivity analysis

As of December 31, 2021 and 2020, the changes in main actuarial assumptions might have an impact on the present value of the defined benefit obligation as follows:

	Influences of defined benefit obligations	
	Increase by 0.25%	Decrease by 0.25%
Balance as of December 31, 2021		
Discount rate	$ (4,388)	4,567
Future salary increase rate	4,330	(4,177)
Balance as of December 31, 2020		
Discount rate	$ (4,372)	4,541
Future salary increase rate	4,300	(4,170)

There is no change in other assumptions when performing the above-mentioned sensitivity analysis. In practice, assumptions may be interactive with each other. The method used on sensitivity analysis is consistent with the calculation on the net pension liabilities.

There is no change in the method and assumptions used in the preparation of sensitivity analysis for 2021 and 2020.

(ii) Defined contribution plans

The Group set aside 6% of the contribution rate of the employee's monthly wages to the Labor Pension personal account of the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. The Group set aside a fixed amount to the Bureau of Labor Insurance without the payment of additional legal or constructive obligations.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

The Group set aside $127,614 thousand and $113,987 thousand, respectively, of the pension under the pension plan costs to the Bureau of Labor Insurance for the years ended December 31, 2021 and 2020.

(iii) The Group' s mainland China subsidiaries have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on certain percentage of employees' monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations. For the years ended December 31, 2021 and 2020, the Group recognized the pension costs in accordance with the pension regulations and amounted to $13,627 thousand and $599 thousand, respectively.

(v) Income tax

(i) Income tax expense

The amounts of income tax expense for the years ended December 31, 2021 and 2020 were as follows:

	2021	2020
Current tax expense (benefit)		
Current period	$ 1,392,243	1,561,285
Adjustment for prior periods	(5,726)	(45,842)
Subtotal	1,386,517	1,515,443
Deferred tax expense (benefit)		
Origination and reversal of temporary differences	(197,052)	18,129
Income tax expense	**$ 1,189,465**	**1,533,572**

The amount of income tax benefit recognized in other comprehensive income for the years ended December 31, 2021 and 2020 were as follows:

	2021	2020
Components of other comprehensive income that will not be classified to profit or loss:		
The remeasurements of defined benefit plans	**$ 220**	**2,147**

Reconciliation of income tax expenses (benefit) and profit before tax were as follows:

	2021	2020
Profit before tax	$ **6,399,879**	**8,002,183**
Estimated income tax calculated using the Company's domestic tax rate	$ 1,279,976	1,600,436
Tax-exempt income	(2,974)	(80,563)
Investment tax credits	(155,180)	(94,701)
Change in unrecognized deductible temporary differences	28,909	28,160
Adjustment for prior periods	(5,726)	(45,842)
Additional tax on unappropriated earnings	83,639	53,608
Others	(39,179)	72,474
	$ **1,189,465**	**1,533,572**

(ii) Deferred tax assets and liabilities

1) Unrecognized deferred tax assets and liabilities

Deferred tax assets have not been recognized in respect of the following items:

	December 31, 2021	December 31, 2020
Tax effect of deductible temporary differences	$ 37,538	40,302
The carry forward of unused tax losses	231,657	199,984
	$ **269,195**	**240,286**

The R.O.C. Income Tax Act allows net losses, as assessed by the tax authorities, to offset taxable income over a period of ten years for local tax reporting purposes. Deferred tax assets have not been recognized in respect of these items because it is not probable that future taxable profit will be available against which the Group can utilize the benefits therefrom.

As of December 31, 2021, the information of the Group's unutilized business losses for which no deferred tax assets were recognized are as follows:

Year of loss	Unutilized business loss	Expiry date
2012	$ 44,302	2022
2013	49,138	2023
2014	53,221	2024
2015	50,740	2025
2016	77,244	2026
2017	142,749	2027
2018	146,068	2028
2019	164,593	2029
2020	172,388	2030
2021	257,843	2031
	$ 1,158,286	

As of December 31, 2021 and 2020, there were no deferred tax liabilities have not been recognized.

2) Movements in the amount of deferred tax assets and liabilities for the years ended December 31, 2021 and 2020 were as follows:

	Allowance for obsolete inventories	Difference in depreciation expense between financial and tax method	Unrealized investment loss recognized under equity method	Others	Total
Deferred tax assets:					
Balance as of January 1, 2021	$ 46,170	2,970	119,156	51,548	219,844
Recognized in profit or loss	10,668	(1,627)	159,395	28,616	197,052
Recognized in other comprehensive income	-	-	-	220	220
Balance as of December 31, 2021	**$ 56,838**	**1,343**	**278,551**	**80,384**	**417,116**
Balance as of January 1, 2020	$ 38,636	60,543	79,868	56,779	235,826
Recognized in profit or loss	7,534	(57,573)	39,288	(7,378)	(18,129)
Recognized in other comprehensive income	-	-	-	2,147	2,147
Balance as of December 31, 2020	**$ 46,170**	**2,970**	**119,156**	**51,548**	**219,844**

(iii) Assessment

The Company's corporate income tax returns for all the years through 2019 were assessed by the tax authorities.

(w) Capital and other equity

(i) Ordinary share issuance

As of December 31, 2021 and 2020, the Group's authorized share capital consisted of 10,000,000 thousand shares of ordinary shares, with $10 dollars par value per share, of which 423,976 thousand shares, and 424,056 thousand shares, respectively, were issued. The Group has reserved $1,000,000 thousand for employee stock options.

Reconciliations of shares outstanding for the years ended December 31, 2021 and 2020 :

	Ordinary share (in thousands)	
	2021	**2020**
Balance at the beginning	424,056	424,056
Purchase and retirement of restricted shares of stock for employees	(80)	-
Balance at the end	**423,976**	**424,056**

On March 18 and November 5, 2021, the Board of Directors approved a resolution to redeem the unvested restricted employee share of stock amounting to 15 and 65 thousand shares, at 10 dollars par value per share, amounting to $800 thousand. The recognition dates for capital reduction were March 31 and November 5, 2021. All related registration procedures had been completed.

On December 22, 2017, the Company issued 20,000 thousand ordinary shares, with subscription price of $277 per share, under private placement. The private placement of ordinary shares would be subject to section 43-8 requirements under the Securities and Exchange Act. The Company can only apply for these shares to be traded publicly after a three-year period has elapsed from the delivery date of the private placement securities, and after applying for a public offering with the Financial Supervisory Commission. The application of the aforementioned privately placed shares for public offering had been approved by the Competent Authorities. Therefore, the above shares took effect on June 23, 2021.

(ii) Capital surplus

Balance of capital surplus at the reporting date were as follows:

	December 31, 2021	December 31, 2020
Additional paid-in capital	$ 9,190,855	9,031,035
Equity component of convertible bonds	639,583	-
Changes in ownership interests in subsidiaries	85,565	69,410
Changes in equity of associates accounted for using the equity method	510	-
Employee stock options	3,245	2,915
Restricted shares of stock issued for employees	50,156	219,738
	$ 9,969,914	**9,323,098**

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

In accordance with amended Company Act, realized capital reserves can only be reclassified as share capital or be distributed as cash dividends after offsetting against losses. The aforementioned capital reserves include share premiums and donation gains. In accordance with the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, the actual amount of capital reserves to be reclassified under share capital shall not exceed 10% of the actual share capital amount.

(iii) Retained earnings

The Company's Articles of Incorporation stipulate that 10% of the balance of annual income or earnings after deducting accumulated deficit, if any, must be set aside as a legal reserve and a special capital reserve is likewise appropriated or the annual income or earnings are retained in accordance with the relevant laws or regulations or as requested by the authorities, but the balance of such legal reserve reaches an amount equal to the paid-in capital, the appropriation to legal reserves is discontinued. Otherwise, the Company shall set aside at least 50% for shareholder, the distribution of remaining balance of the earnings should be further proposed by the Board of Directors and resolved by the shareholders' meeting. And the cash dividends should not lower than 10% of the total stockholders' dividends.

It is authorized the distributable dividends and bonuses or legal capital reserve and capital reserve in whole or in part may be paid in cash after a resolution has been adopted by a majority vote at a meeting of the Board of Directors attended by two-thirds of the total number of directors; and in addition thereto a report of such distribution shall be submitted to the shareholders' meeting.

As the Company is a technology and capital-intensive enterprise and is in its growth phase, it has adopted a more prudent approach in appropriating its remaining earnings as its dividend policy in order to sustain its long-term capital needs and thereby maintain continuous development and steady growth.

1) Legal reserve

If the Company experienced profit for the year, the meeting of shareholders shall decide on the distribution of the legal reserve either by new shares or by cash of up to 25% of the actual share capital.

2) Special reverse

In accordance with the FSC, a portion of current period earnings and undistributed prior period earnings shall be reclassified as a special earnings reserve during earnings distribution. The amount to be reclassified should be equal to the total net reduction of current period of other shareholders' equity resulting from the IFRS first-time adoption. Similarly, a portion of undistributed prior period earnings shall be reclassified as a special earnings reserve (and does not qualify for earnings distribution) to account for cumulative changes to other shareholders' equity pertaining to prior periods due to the IFRS first time adoption. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions.

3) Appropriations of earnings

The appropriations of earning for 2020 and 2019 had been approved in the meeting of Board of Directors held on March 18, 2021 and 2020, respectively. The appropriations and dividends were as follows:

	2020	2019
Cash dividends	$ 4,240,414	2,968,394

The related information mentioned above can be found on websites such as the Market Observation Post System.

On March 18, 2022, the Board of Directors resolved to appropriate the 2021 earnings. The earnings were appropriated as follows:

	2021	
	Amount per share (in dollars)	Total amount
Cash dividends	$ 8.00	$ 3,391,811

(iv) Other equity interests, net of tax

	Exchange differences on translation of foreign financial statements	Unrealized gains (losses) on financial assets at fair value through other comprehensive income	Other unearned compensation for restricted shares of employees
Balance as of January 1, 2021	$ (202,205)	3,780,846	(65,738)

(x) Share-based payment

(i) The Company issued restricted shares of stock for employee

On June 15, 2018, the shareholders' meeting approved a resolution to issue 1,700 thousand new restricted employee shares to full-time regular employees who meet specific requirements. The above transaction had been approved by the Financial Supervisory Commission. The Company decided that the grant date was set on August 22, 2018 and in accordance with the resolution of Board of Directors meeting held on September 14, 2018, the Company issued 1,148 thousand shares (the date of capital increase was set on September 14, 2018), with the fair-value on grant date amounting to $175,357 thousand. On March 21, 2019, the Company's Board of Directors approved a resolution to redeem the unvested restricted employee share of stock amounting to 20 thousand shares. The Company decided that the second grant date was set on May 10, 2019. And in accordance with the resolution of Board of Directors meeting held on May 14, 2019, the Company issued 262 thousand shares (the date of capital increase was set on May 14, 2019), with the fair-value on grant date amounting to $50,364 thousand. The remaining amount of 290 thousand shares will not be processed during the remaining period. On March 18 and November 5, 2021, the Company approved a resolution to redeem the unvested restricted employee share of stock amounting to 80 thousand shares.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

For the years ended December 31, 2021 and 2020, there were 1,048 thousand and 0 thousand vested shares, respectively.

As of December 31, 2021 and 2020, there were 1,310 thousand and 1,390 thousand outstanding shares, respectively.

Those employees with the restricted stock awards (RSA) are entitled to purchase shares without cost under the conditions that these employees will continue to provide service to the Company for at least 3 years (from the grant date), and meet certain requirement. Based on the Company’s requirements, the restricted employee shares should be fully vested in the third year after the grant date. These shares shall not be sold, pledged, transferred, gifted, or disposed by any other means to third parties during the custody period. The voting rights of these shareholders need not be executed by the custodian, and will act based on law and regulations. The cash and stock dividends distributed during the custody period will be granted to the employees. If the shares remain unvested after the vesting period, the Company will redeem all the unvested shares, and cancel the shares thereafter.

For the years ended December 31, 2021 and 2020, the Company recognized the compensation cost of $48,618 thousand and $79,216 thousand for the aforementioned RSA, respectively.

(ii) The employee stock option (ESOPs) of subsidiary (PBL)

	2018 ESOPs
Grant date	2018.4.20
Number of options granted (unit)	5,560
Number of common shares eligible (share)	1,000
Contract period	2018.4.20~2026.4.19
Vesting period	2018.4.20~2021.4.19
Recipients	Employees of PBL

PBL used the Black-Scholes Model in measuring the fair value of its employee stock option at the date of grant. The main inputs to the valuation model were as follows:

	2018 employee stock options exercise in the 1st year	**2018 employee stock options exercise in the 2nd year**	**2018 employee stock options exercise in the 3rd year**
Fair value at grant date (dollars)	$ 3.93	$ 4.13	$ 4.32
Share price at grant date (dollars)	$ 11.29	$ 11.29	$ 11.29
Exercise price (dollars)	$ 11	$ 11	$ 11
Expected volatility	40%	40%	40%
Expected life	4.5 years	5 years	5.5 years
Risk-free interest rate	0.70%	0.74%	0.77%

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

Details of the employee stock options were as follows:

	2021		2020	
	Weighted average exercise price (expressed in dollars)	Shares of options (expressed in thousands)	Weighted average exercise price (expressed in dollars)	Shares of options (expressed in thousands)
Outstanding at January 1	$ 11	5,560	11	5,560
Granted during the period	-	-	-	-
Outstanding at December 31	11	**5,560**	11	**5,560**
Exercisable at December 31	-	**5,560**	-	**5,560**

For the years ended December 31, 2021 and 2020, the PBL recognized the compensation cost of $560 thousand and $2,484 thousand for the aforementioned ESOPs, respectively.

(y) Earnings per share ("EPS")

	2021	2020
Basic earnings per share:		
Profit belonging to common shareholders	$ **5,454,962**	**6,528,740**

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

(ii) Balance of contracts

	December 31, 2021	December 31, 2020	January 1, 2020
Notes receivable	$ 1,053	632	684
Accounts receivable	2,717,312	2,037,018	2,410,333
Less: loss allowance	(805)	(148)	(4,344)
	$ 2,717,560	**2,037,502**	**2,406,673**
Contract liabilities	**$ 353,157**	**534,426**	**260,426**

For details of notes and accounts receivable and allowance for impairment, please refer to Note 6(c).

The major change in the balance of contract liabilities is the difference between the time frame in the performance obligation to be satisfied and the payment to be received. The amount of revenue recognized for the years ended December 31, 2021 and 2020, that was included in the contract liabilities balance at the beginning of the period was $507,043 thousand and $235,944 thousand, respectively.

(aa) Employees' and directors' remuneration

According to the Company's Article of Incorporation, if there is any net profit after closing of a fiscal year, it shall be allocated according to the following principles:

(i) Employees' remuneration: not less than 5% but no more than 10% and shall be determined and pursuant to Employee Bonus Procedure of the Company. In addition, employee's profit-sharing remuneration shall be distributed in the form of shares or cash. Stock-type employee remuneration may be distributed to qualified employees of affiliates of the Company.

(ii) Directors's remuneration: no more than 3%.

However, if there are any accumulated losses of the Company, the Company shall pre-reserve the amount to offset the loss. The distribution of employees' profit-sharing bonus and Directors's remuneration shall follow the special resolution by Board of Directors, and report it to the shareholders' meeting.

The Company estimated its employees' and directors' remuneration as follows:

	2021	2020
Employees' remuneration	$ 447,000	543,300
Directors' remuneration	129,000	157,700
	$ 576,000	**701,000**

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

The amount of employees' remuneration, and directors' remuneration were estimated based on profit before tax, net of the amount of the remuneration, and multiplied by the rule of Company's Article of Incorporation. The above remuneration was included in the operating costs and operating expenses of for the years ended December 31, 2021 and 2020. The differences between the actual distributed amounts as determined by the Board of Directors and those recognized in the financial statements, if any, shall be accounted for as changes in accounting estimates and recognized in profit or loss in the following year.

There were no differences between the actual distributed amounts as determined by the Board of Directors and those recognized in the Company's parent-company-only financial statements for the years ended December 31, 2021 and 2020.

The related information mentioned above can be found on websites such as the Market Observation Post System.

(ab) Non-operating income and expenses

(i) Interest income

Finance costs	$	**309,380**	**92,964**

(ac) Financial instruments

(i) Credit risk

1) Exposure of credit risk

a) As at reporting, the Group’s exposure to credit risk and the maximum exposure were mainly from:

i) The carrying amount of financial assets recognized in the consolidated balance sheet; and

ii) The amount of liabilities as a result from the Group providing financial guarantees was $203,448 thousand and $209,328 thousand as of December 31, 2021 and 2020.

2) Disclosures about concentrations of risk

As of December 31, 2021 and 2020, the Group’s accounts receivable were concentrated on 4 and 5 customers, respectively, whose accounts represented 68% and 64% of the total accounts receivable, respectively. In order to reduce the credit risk on these accounts receivable, the Group continues to evaluate the financial status of these customers and request for collaterals when necessary.

3) Receivables and debt securities

For information on credit risk regarding notes and accounts receivable, please refers to Note 6(c).

Other financial assets measured at amortized cost include other receivables. For related information of investment and impairment, please refers to Note 6(d).

All of these financial assets are considered to have low risk, and thus, the impairment provision recognized during the period was limited 12 months expected losses.

(ii) Liquidity risk

The following were the contractual maturities of financial liabilities:

	Carrying amount	Contractual cash flows	Within 1 year	1-2 years	2-5 years	Over 5 years
As of December 31, 2021						
Non-derivative financial liabilities						
Secured bank loans	$ 6,272,160	6,420,797	40,043	189,481	6,191,273	-
Unsecured bank loans	9,720,660	9,864,259	60,610	2,659,255	7,144,394	-
Bonds payable	13,286,639	13,577,452	-	-	13,577,452	-
Notes and accounts payable	2,162,825	2,162,825	2,162,825	-	-	-
Other payables	3,440,833	3,440,833	3,440,833	-	-	-
Guarantee deposits received	130,398	130,398	11,951	8,447	110,000	-
Lease liabilities	1,157,209	1,429,386	134,132	119,574	300,119	875,561
	$ 36,170,724	**37,025,950**	**5,850,394**	**2,976,757**	**27,323,238**	**875,561**
As of December 31, 2020						
Non-derivative financial liabilities						
Secured bank loans	$ 4,409,680	4,513,312	30,831	3,721,793	760,688	-
Unsecured bank loans	7,008,940	7,121,530	45,052	2,216,672	4,859,806	-
Notes and accounts payable	1,794,668	1,794,668	1,794,668	-	-	-
Other payables	3,132,855	3,132,855	3,132,855	-	-	-
Guarantee deposits received	124,732	124,732	6,174	8,558	110,000	-
Lease liabilities	699,884	940,240	92,885	81,864	196,046	569,445
	$ 17,170,759	**17,627,337**	**5,102,465**	**6,028,887**	**5,926,540**	**569,445**

The Group did not expect that the cash flows included in the maturity analysis could occur significantly earlier or at significantly different amounts.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

(iii) Currency risk

1) Exposure to currency risk

The Group's significant exposure to foreign currency risk were as follows:

	December 31, 2021			December 31, 2020		
	Foreign currency	Exchange rate	NT$	Foreign currency	Exchange rate	NT$
Financial assets						
Monetary items						
USD	$ 453,406	27.68	12,550,289	242,839	28.48	6,916,049
EUR	57	31.32	1,775	7	35.02	246
JPY	1,222,818	0.2405	294,088	2,391,001	0.2763	660,634
GBP	11	37.30	411	11	38.90	428
HKD	60	3.549	211	60	3.673	221
RMB	1,831	4.34	7,948	1,232	4.38	5,398
SGD	1	20.46	18	-	-	-
			$ 12,854,740			$ 7,582,976
Non-monetary items						
USD	$ 26,468	27.68	732,640	15,703	28.48	448,558
RMB	242,948	4.34	1,053,719	179,878	4.38	785,950
			$ 1,786,359			$ 1,234,508
Financial liabilities						
Monetary items						
USD	$ 233,251	27.68	6,456,379	172,495	28.48	4,912,645
EUR	641	31.32	20,086	1,233	35.02	43,180
JPY	982,177	0.2405	236,214	911,604	0.2763	251,876
			$ 6,712,679			$ 5,207,701

2) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, notes and accounts receivable, other receivables, financial assets at fair value through profit or loss, notes and accounts payable, other payables, long-term borrowings, etc. that are denominated in foreign currency. A strengthening (weakening) 5 % of appreciation (depreciation) of the TWD against the USD, EUR, GBP, JPY, HKD, RMB, SGD, etc. for the years ended December 31, 2021 and 2020 would have increased (decreased) the net profit after tax by \$274,988 thousand and \$111,825 thousand, respectively. The analysis assumes that all other variables remain constant.

(Continued)

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

3) Exchange gains or losses

Since the Group has many kinds of functional currency, the information on foreign exchange gains (losses) on monetary items is disclosed by total amount. For years ended December 31, 2021 and 2020, foreign exchange gains (including realized and unrealized portions) amounted to $126,890 thousand and $43,933 thousand, respectively.

(iv) Interest rate risk

Please refer to the attached note for the liquidity risk and the Group's interest rate exposure to its financial liabilities.

The following sensitivity analysis is based on the risk exposure to interest rates on the non-derivatives financial instruments on the reporting date. For variable rate instruments, the sensitivity analysis assumes the variable rate liabilities are outstanding for the whole year on the reporting date.

If the interest rate increases (decreases) by 0.5%, the Group's net profit after tax would have increased (decreased) by $54,002 thousand and $31,655 thousand for the years ended December 31, 2021 and 2020, respectively, all other variable factors that remain constant. This is mainly due to the Group's borrowing in floating rates.

(v) Fair value

1) Financial instrument classifications and fair values

The fair value of financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income are measured on a recurring basis. The carrying amount and fair value of the Group's financial assets and liabilities, including the information on fair value hierarchy were as follows; however, except as described in the following paragraphs, for financial instruments not measured at fair value whose carrying amount is reasonably close to the fair value, and lease liabilities disclosure of fair value information is not required.

	December 31, 2021

Note: The information on fair value is not disclosed since the carrying amount is a reasonable approximation of fair value.

2) Valuation techniques of financial instrument not valued at fair value

The valuation techniques of the Group's financial instruments not valued at fair value by using the methods and assumptions are as follows:

- Financial assets measured at amortized cost and financial liabilities measured at amortized cost.

  If recent transaction prices or market maker quotes are available, the fair value is based on such information. If there is no quoted market price available, the fair value is determined by using valuation techniques and calculated as the present value of the estimated cash flows.

3) Valuation techniques of financial instruments valued at fair value

a) Non-derivative instruments

The fair value of financial assets and liabilities traded in an active market is based on the quoted market prices. The quotation, which is published by the main exchange center or that which was deemed to be a public bond by the Treasury Bureau of Central Bank, is included in the fair value of the listed securities instruments and the debt instruments in active markets with open bid.

A financial instrument is regarded as the quoted price in an active market if the quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency; and if those prices represent the actual and regularly occurring market transactions on an arm's length basis. Otherwise, the market is deemed to be inactive. Normally, a market is considered to be inactive when:

- The bid-ask spread is increasing; or
- The bid-ask spread varies significantly; or
- There has been a significant decline in trading volume.

When the financial instrument of the Group is traded in an active market, its fair value is illustrated by the category and nature as follows:

- Financial assets and liabilities with standard terms and conditions and traded in an active market, for example, investment in stock of listed companies: the fair value is based on the market quoted price.
- Close-end funds with standard terms and conditions, such as money market funds; investors can require the investment trust company to redeem the fund at any time. The fair value is based on the net value of the fund.

Except for the above-mentioned financial instruments traded in an active market, the fair value is based on the valuation techniques or the quotation from the counter-party. The fair value refers to the current fair value of the other financial instruments with similar conditions and characteristics, using a discounted cash flow analysis or other valuation techniques, such as calculations of using models (for example, applicable yield curve from Taipei Exchange, or average quoted price on interest rate of commercial paper from Reuters), based on the information acquired from the market at the balance sheet date.

When the financial instrument of the Group is not traded in an active market, its fair value is determined as follows:

- The fair value is determined based on the ratio of the quoted market price of the comparative listed company and its book value per share and its sales revenue per share. Also, the fair value is discounted for its lack of liquidity in the market.
- The fair value is determined by using the asset-based approach, whose assumptions are based on the market approach, income approach, cost approach or other valuation methods according to the nature of the assets or liabilities of the subject companies.

b) Derivative instruments

The fair value is determined by using the models that are acceptable to the market participants, for example, discounted cash flow analyses or option pricing models. Forward exchange contracts are measured using quoted forward exchange rates. The fair value of structured interest derivative financial instruments is determined by using the proper option pricing models, such as Black-Scholes model, or other valuation technique, such as Monte Carlo simulation.

4) Transfer between level 2 and level 1

For years ended December 31, 2021 and 2020, there was no transfer between level 2 and level 1 financial asset of the fair value hierarchy.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

5) Movement of level 3

	Fair value through profit or loss		Fair value through other comprehensive income
	Unquoted equity instruments	Private fund	Unquoted equity instruments
Balance as of January 1, 2021	$ -	814,065	963,298
Total gains or losses:			
Recognized in profit and loss	121,090	275,640	-
Recognized in other comprehensive income	-	-	(267,886)
Purchased	261,417	353,212	12,000
Disposals	-	-	(16,270)
Capital reduction	-	(901)	(10,000)
Effect of changes in foreign exchange rates	(2,090)	-	(800)
Balance as of December 31, 2021	**$ 380,417**	**1,442,016**	**680,342**
Balance as of January 1, 2020	$ -	565,804	700,247
Total gains or losses:			
Recognized in profit and loss	-	(34,282)	-
Recognized in other comprehensive income	-	-	(109,739)
Purchased	-	282,543	455,937
Disposals	-	-	(75,188)
Capital reduction	-	-	(6,667)
Effect of changes in foreign exchange rates	-	-	(1,292)
Balance as of December 31, 2020	**$ -**	**814,065**	**963,298**

The preceding gains and losses were recognized as "other gains and losses" and "unrealized gains (losses) from investments in equity instruments measured at fair value through other comprehensive income". As of December 31, 2021 and 2020, the related information of the assets which were still held by the Group were as follows:

	2021	2020
Total gains or losses		
Profit or loss (recognized as other gains and losses)	396,730	(34,282)
Other comprehensive income (recognized as unrealized gains (losses) from investments in equity instruments measured at fair value through other comprehensive income)	(267,886)	(159,806)

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

6) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Group's financial instruments that use Level 3 inputs to measure fair value include "financial assets at fair value through profit or loss – equity investment", "financial assets at fair value through profit or loss – private funds" and "financial assets at fair value through other comprehensive income – equity investments."

Most of the fair value measurements categorized within Level 3 use the single and significant unobservable input. Equity investments without an active market contains multiple significant unobservable inputs. The significant unobservable inputs of the equity investments are independent from each other, as a result, there is no relevance between them.

Quantified information of significant unobservable inputs was as follows:

Item	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Financial assets at fair value through other comprehensive income – equity investments without an active market	● Comparable listed companies approach	● Price-book ratio (as of December 31, 2021 and 2020 were 1.66~6.27 and 1.62~7.33, respectively) ● Market liquidity discount rate (as of December 31, 2021 and 2020 were both 20%)	● The higher the price-book ratio, the higher the fair value ● The higher the market liquidity discount rate, the lower the fair value
	● Net asset value method	● Net asset value	● The higher the net assets value, the higher the fair value
Financial assets at fair value through profit or loss – equity investments without an active market	● Comparable listed companies approach	● Price-to-sale ratio (as of December 31, 2021 was 5.97) ● Market liquidity discount rate (as of December 31, 2021 was 20%)	● The higher the price-to sales ratio, the higher the fair value ● The higher the market liquidity discount rate, the lower the fair value
Financial assets at fair value through profit or loss – private fund	● Net asset value method	● Net asset value	● The higher the net assets value, the higher the fair value

7) Sensitivity analysis of reasonably possible alternative assumptions for fair value measurements in Level 3 of the fair value hierarchy

The fair value measurements of the Group's financial instruments are reasonable. However, changes in the use of valuation models or valuation variables may affect the estimations. For fair value measurements in Level 3, a fluctuation in the valuation variable by 5% would have the following effect:

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

	Inputs	Increase or decrease	Effects of changes in fair value on profit or loss		Effects of changes in fair value on other comprehensive income	
			Favorable	Unfavorable	Favorable	Unfavorable
December 31, 2021						
Financial assets at fair value through profit or loss						
Equity investments without an active market	Price-to-sales ratio	5%	$ 19,021	(19,021)	-	-
〃	Market liquidity discount rate	5%	19,021	(19,021)	-	-
Private fund	Net asset value	5%	72,101	(72,101)	-	-
Financial assets at fair value through other comprehensive income						
Equity investments without an active market	Price-book ratio	5%	-	-	13,944	(13,944)
〃	Market liquidity discount rate	5%	-	-	13,944	(13,944)
〃	Net asset value	5%	-	-	20,073	(20,073)
December 31, 2020						
Financial assets at fair value through profit or loss						
Private fund	Net asset value	5%	$ 40,703	(40,703)	-	-
Financial assets at fair value through other comprehensive income						
Equity investments without an active market	Price-book ratio	5%	-	-	26,510	(26,510)
〃	Market liquidity discount rate	5%	-	-	26,510	(26,510)
〃	Net asset value	5%	-	-	21,655	(21,655)

The favorable and unfavorable effects represent the changes in fair value, and fair value is based on a variety of unobservable inputs calculated using a valuation technique. The analysis above only reflects the effects of changes in a single input, and it does not include the inter-relationships with another input.

(ad) Management of financial risk

(i) The Group is exposed to the extent of the risks arising from financial instruments as below:

1) Credit risk

2) Liquidity risk

3) Market risk

Detailed information about exposure risk arising from the aforementioned risk was listed below. The Group’s objective, policies and process for managing risks and methods used to measure the risk arising from financial instruments.

(ii) Risk management framework

The Board of Directors is responsible for overseeing the Group's risk management framework. The Group's internal auditor is responsible to identify and analyze the risks faced by the Group. The management of each division sets appropriate risk limits and controls, and monitor risks that follow the adherence to limits. The Group, through their training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group's Audit Committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group's Audit Committee is assisted in its oversight role by the internal auditor. The internal auditor undertakes both regular and ad hoc reviews of risk management controls and the procedures, and the result of which are reported to the Audit Committee.

(iii) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to financial instruments fails to meet it contractual obligations that arises principally from the Group's accounts receivable, investments in securities and investments in bond.

1) Notes and accounts receivable

According to the credit policy, the Group analyze each new customer individually for their credit worthiness before granting the new customer standard payment terms and delivery terms. The Group's review includes external ratings of customers' financial information and bank references. Credit lines are established for each customer and reviewed periodically.

2) Investments

The credit risk exposure in the bank deposits, fixed income investments and equity instruments are measured and monitored by the Group's finance department. Since the Group's transactions resulted from the external parties with good credit standing and investment grade above financial institutions, publicly traded stock companies and unlisted companies with good reputation, there are no incompliance issues and therefore no significant credit risk.

3) Guarantees

According to the Group's policy, the Group can only provide guarantees which are listed under the regulation. The Group did not provide any guarantee not listed under the regulation as of December 31, 2021 and 2020.

(Continued)

(iv) Liquidity risk

Liquidity risk is a risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group's financial department monitors cash flow requirements and optimizing its cash return on investments. The Group aims to maintain the level of its cash and cash equivalents at an amount in excess of expected cash flows on financial liabilities (other than trade payables) over the succeeding one year. The Group also monitors the level of expected cash outflows on account and other payables. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. As of December 31, 2021, the Group has unused bank credit lines for short-term borrowings, the unused bank credit lines for short-term borrowings and long-term borrowings and long-term bank borrowings amounted to $1,010,000 thousand, $3,568,680 thousand and $8,922,568 thousand, respectively.

(v) Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices, which will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of the Group's entities, primarily the Taiwan Dollars (TWD), US Dollars (USD) and Japanese Yen (JPY).

The policy of response to currency risk:

1) The Group reserves the foreign currency position arising from sales appropriately to remit the foreign currency expenditures and then meets the natural hedge.

2) The Group uses foreign currency borrowings and forward exchange contracts to hedge the remaining nature of currency risk arising from the netting of foreign currency accounts receivable and accounts payable.

3) The Group manages the currency risk and then determines the timing of exchanging the foreign currency through collecting the foreign currency information. It also stays in contact with the foreign currency department to control the foreign currency trend and market information.

(ae) Capital management

As of December 31, 2021 and 2020, the Group's return on common equity was 15.81% and 20.49%, respectively. The Group's debt ratio at the reporting date were as follows:

	December 31, 2021	December 31, 2020
Debt ratio	50.43 %	34.68 %

(af) Financing activity

Reconciliations of liabilities arising from financing activities were as follows:

	January 1, 2021	Cash flows: Proceeds from long-term debt and bonds payable	Cash flows: Repayments of long-term debt and lease liabilities	Cash flows: Others	Non-cash changes: Interest expense	Non-cash changes: Others	Non-cash changes: Amortization of arranger fee of syndicated loan	December 31, 2021
Long-term borrowings	$ 11,418,620	7,759,270	(3,081,000)	-	-	(132,079)	28,009	15,992,820
Bonds payable	-	13,902,774	-	-	163,368	(779,503)	-	13,286,639
Guarantee deposit received	124,732	-	-	5,666	-	-	-	130,398
Lease liabilities (Note 1)	699,884	-	(123,806)	(13,680)	30,309	564,502	-	1,157,209
Total liabilities from financing activity	**$ 12,243,236**	**21,662,044**	**(3,204,806)**	**(8,014)**	**193,677**	**(347,080)**	**28,009**	**30,567,066**

	January 1, 2020	Cash flows: Proceeds from long-term debt	Cash flows: Repayments of long-term debt and lease liabilities	Cash flows: Others	Non-cash changes: Interest expense	Non-cash changes: Others	Non-cash changes: Amortization of arranger fee of syndicated loan	December 31, 2020
Long-term borrowings	$ 5,788,125	8,348,293	(2,632,500)	-	-	(114,846)	29,548	11,418,620
Guarantee deposit received	125,611	-	-	(879)	-	-	-	124,732
Lease liabilities (Note 2)	369,327	-	(96,721)	(3,810)	17,277	413,811	-	699,884
Total liabilities from financing activity	**$ 6,283,063**	**8,348,293**	**(2,729,221)**	**(4,689)**	**17,277**	**298,965**	**29,548**	**12,243,236**

Note 1: Interest expense includes capitalized interest expense transferred to construction in progress, which amounted to $4,320 thousand.

Note 2: Interest expense includes capitalized interest expense transferred to construction in progress, which amounted to $4,304 thousand.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

(7) Related-party transactions:

(a) Names and relationship with related parties

The followings are entities that have had transactions with related party during the periods covered in the consolidated financial statements:

Name of related party	Relationship with the Group
Jiangsu CM/Chainwin Agriculture Development Co., Ltd. (abbrev. Jiangsu CM/Chainwin)	Associates
ITEQ Corporation (abbrev. ITEQ) (Note)	Associates
Chainwin i-Management Co., Ltd. (abbrev. Chainwin i- Management)	Other related parties
Chainwin i-Management (Huaian) Co., Ltd.	Other related parties
Taoyuan i-Fare Charity Foundation	Other related parties

Note: In July 2021, the Group has significant influence over ITEQ, and therefore the ITEQ has become the Group's associates since July 2021.

(b) Significant transactions with related parties

(i) Purchases

The amounts of significant purchases by the Group from related parties were as follows:

	2021	2020
Other related parties	$ 6,795	602

The terms and pricing of purchase transactions with related parties were not significantly different from those offered by other vendors.

(ii) Operating expenses

The amounts of operating expenses by the Group from related parties were as follows:

	2021	2020
Other related parties	$ 4,000	2,000

(iii) Guarantee

As of December 31, 2021, and 2020, Chainwin Cayman had provided a guarantee for loans amounting to US$7,350 thousand ($203,448 thousand, and $209,328 thousand, respectively) to its associate, Jiangsu CM/Chainwin.

(iv) Property transactions－acquire assets

Account	Category	2021	2020
Intangible assets	Other related parties－Chainwin i-Management	$ -	162,965
Property, plant and equipment	Other related parties	$ 654	162

(Continued)

(v) Leases

The Group leased the office and factories to its associate, ITEQ, and the rent income received monthly is based on the nearby office and factories rental rates. The amount of rent income is $28,926 thousand and $29,009 thousand for the years ended December 31, 2021 and 2020. The preceding rent payment has been received. The guarantee deposits received amounted to $110,000 thousand as of December 31, 2021, and 2020.

(vi) Equity transaction

The Group subscribed the new shares contributed by associates in cash. Please refer to Note 6(g).

(c) Transactions with key management personnel

Key management personnel compensation was comprised as below:

	2021	2020
Short-term employee benefits	$ 621,523	636,013
Post-employment benefits	1,424	1,256
	$ 622,947	637,269

(8) Pledged assets:

The carrying amounts of pledged assets were as follows:

Pledged assets	Pledged to secure	December 31, 2021	December 31, 2020
Other non-current assets	Land, plant, and dormitory lease guarantee	$ 35,043	11,819
Other non-current assets	Bank deposits－reserve accounts	9,310	6,693
Other non-current assets	Gas deposits	4,700	4,700
Other non-current assets	Customs guarantee with interest	20,579	20,430
Other non-current assets	Guarantee deposits of letters of credit	44,056	97,258
Other non-current assets	Seizure deposits	5,212	25,082
Property, plant and equipment	Long-term borrowings	2,244,061	2,003,867
Investment property	Long-term borrowings	-	321,517
Total		$ 2,362,961	2,491,366

(9) Commitments and contingencies:

(a) Contingencies: None.

(b) Commitment:

(i) The unrecognized commitment of acquisition of plant expansion and machinery equipment was as follows:

	December 31, 2021	December 31, 2020
The unrecognized amount	$ 7,431,148	5,521,073

(ii) The unused letters of credit was as follows:

	December 31, 2021	December 31, 2020
The unused letters of credit	$ 43,956	82,674

(10) Losses due to major disasters: None.

(11) Subsequent events: None.

(12) Other:

(a) The followings were the summary statement of employee benefits, depreciation and amortization expenses by function:

	2021			2020		
	Classified as operating costs	Classified as operating expenses	Total	Classified as operating costs	Classified as operating expenses	Total
Employee benefits						
Salaries	3,020,938	1,391,794	4,412,732	2,746,116	1,155,011	3,901,127
Labor and health insurance	238,744	74,665	313,409	205,134	61,878	267,012
Pension	103,018	39,964	142,982	89,857	26,595	116,452
Director remuneration	-	129,230	129,230	-	158,071	158,071
Others	138,270	44,147	182,417	142,091	56,707	198,798
Depreciation	3,641,162	393,811	4,034,973	3,304,794	322,801	3,627,595
Amortization	34,917	97,452	132,369	25,151	83,730	108,881

(b) As of the date the financial statements were authorized for issue, the COVID-19 pandemic did not have a significant impact on the Group's operating ability, and the Group is continuously monitoring and assessing the situation.

(13) Other disclosures:

(a) Information on significant transactions:

The following were the information on significant transactions required by the " Regulations Governing the Preparation of Financial Reports by Securities Issuers" for the Group for the year ended December 31, 2021:

(i) Loans to other parties: Please refer to schedule A.

(ii) Guarantees and endorsements for other parties: Please refer to schedule B.

(iii) Securities held as of December 31, 2021 (excluding investment in subsidiaries, associates and joint ventures): Please refer to schedule C.

(iv) Individual securities acquired or disposed of with accumulated amount exceeding the lower of NT$300 million or 20% of the Company's paid-in capital: Please refer to schedule D.

(v) Information on acquisition of real estate with purchase amount exceeding the lower of NT$300 million or 20% of the Company's paid-in capital: Please refer to schedule E.

(vi) Information on disposal of real estate with amounts exceeding the lower of NT$300 million or 20% of the Company's paid-in capital: None.

(vii) Information regarding related-parties purchases and/or sales with amounts exceeding the lower of NT$100 million or 20% of the Company's paid-in capital: None.

(viii) Information regarding receivables from related-parties exceeding the lower of NT$100 million or 20% of the Company's paid-in capital: Please refer to schedule F.

(ix) Information regarding trading in derivative financial instruments: Please refer to Note 6(b).

(x) Business relationships and significant intercompany transactions: Please refer to schedule G.

(b) Information on investments: Please refer to schedule H.

(c) Information on investment in mainland China: Please refer to schedule I.

(d) Information on major shareholders: No shareholders holding more than 5% of the share.

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

(14) Segment information:

(a) The Group's reportable segment is the foundry segment, and agriculture technology segment. The segment engages separately in researching, developing, manufacturing, selling of GaAs wafers and developing hog farming technology and trading, etc., respectively.

Other operating segments are mainly engaged in investment activities and gene chip and testing, which do not exceed the quantitative thresholds to be reported.

(b) Operating segment profit or loss (includes reportable segment revenue and expenses), segment assets, segment liabilities, and their measurement and reconciliations for the year ended December 31, 2021 and 2020, the reportable amount is same as that in the report used by the operating decision maker and the operating segment accounting policies are same as the ones described in Note 4 "significant accounting policies" were as follows:

2021	**Foundry**	**Agriculture technology**	**Others**	**Reconciliation and elimination**	**Total**
Revenue:					
Revenue from external customers	$ 25,521,833	393,628	266,915	-	26,182,376
Interest expenses	$ 205,163	97,329	6,888	-	309,380
Depreciation and amortization	$ 3,959,573	179,252	26,261	2,256	4,167,342
Shares of profits (losses) of associates and joint ventures accounted for using equity method	$ 254,979	(106,680)	50,236	-	198,535
Reportable segment profit or loss	$ 7,134,060	(726,124)	17,369	(2,256)	6,423,049
Assets:					
Capital expenditures in noncurrent assets	$ 4,322,379	3,796,224	107,881	-	8,226,484

2020	**Foundry**	**Agriculture technology**	**Others**	**Reconciliation and elimination**	**Total**
Revenue:					
Revenue from external customers	$ 24,940,505	382,239	223,461	-	25,546,205
Interest expenses	$ 28,769	62,412	1,783	-	92,964
Depreciation and amortization	$ 3,629,361	80,808	22,247	4,060	3,736,476
Shares of profits (losses) of associates and joint ventures accounted for using equity method	$ -	127,256	(1,226)	-	126,030
Reportable segment profit or loss	$ 8,131,263	(324,992)	(20,038)	(4,060)	7,782,173
Assets:					
Capital expenditures in noncurrent assets	$ 4,330,657	4,468,799	35,644	-	8,835,100

For the years ended December 31, 2021 and 2020, reportable segment profit or loss excludes non-operating income and expenses, amounting to $(23,170) thousand and $220,010 thousand, respectively.

(c) Segment information by products and services

The information from the product and the service segment coincides with the administrative segment, and its revenue from external customers was disclosed in Note 14(b).

(Continued)

WIN Semiconductors Corp. and Subsidiaries
Notes to the Consolidated Financial Statements

(d) Geographic information

In presenting information on the basis of geography, segment revenue is based on the geographical location of customers, and segment assets are based on the geographical location of the assets.

Revenue from external customers for the years ended December 31, 2021 and 2020 were as follows:

Area	2021	2020
External Customers:		
Asia	$ 17,106,361	17,018,828
America	6,850,101	5,825,259
Taiwan	1,253,342	1,586,785
Europe	972,572	1,115,333
Total	**$ 26,182,376**	**25,546,205**

Area	December 31, 2021	December 31, 2020
Non-current Assets:		
Taiwan	$ 21,731,287	20,695,647
Asia	10,837,850	7,016,486
America	7,437	12,701
Total	**$ 32,576,574**	**27,724,834**

Non-current assets include property, plant and equipment, investment property, right-of-use assets, intangible assets and prepayments for business facilities; not including financial instruments, goodwill and deferred tax assets.

(e) Major customers

For the years ended December 31, 2021 and 2020, sales to customers greater than 10% of net revenue were as follows:

	2021		2020	
	Net revenue amount	**Percentage of net revenue (%)**	**Net revenue amount**	**Percentage of net revenue (%)**
Operating revenue of the Group-A company	$ 4,349,154	16	2,463,778	10

Note 1: Company numbering as follows:
Issuer－0
Investee starts from 1

Note 2: The credit amount to lending.

Note 3: Purposes of lending were as follows:
1. Business relationship
2. Short-term financing

Note 4: Chainwin Biotech and Agrotech (Cayman Islands) Co., Ltd.'s operating procedures of financing to other parties：
1. The loan limit to an individual party：(1) the total amount for lending to a company having business relationship with Chainwin Biotech and Agrotech (Cayman Islands) Co., Ltd. shall not exceed their previous or current's total purchasing or sales amount (whichever is higher).
(2) the total amount for lending to a company having short-term funding needs shall not exceed 20% of Chainwin Biotech and Agrotech (Cayman Islands) Co., Ltd.'s equity based on its most recent audited or reviewed financial statements by a certified accountant.
2. The maximum loans to other parties limit provided by Chainwin Biotech and Agrotech (Cayman Islands) Co., Ltd. to other parties should not exceed 40% of its equity based on its most recent audited or reviewed financial statements by a certified accountant.

Note 5: i-Chainwin Technology (Cayman Islands) Co., Ltd.'s operating procedures of financing to other parties：
1. The loan limit to an individual party：(1) the total amount for lending to a company having business relationship with i-Chainwin Technology (Cayman Islands) Co., Ltd. shall not exceed their previous or current's total purchasing or sales amount (whichever is higher).
(2) the total amount for lending to a company having short-term funding needs shall not exceed 20% of i-Chainwin Technology (Cayman Islands) Co., Ltd.'s equity based on its most recent audited or reviewed financial statements by a certified accountant.
2. The maximum loans to other parties provided by i-Chainwin Technology (Cayman Islands) Co., Ltd. should not exceed 40% of its equity based on its most recent audited or reviewed financial statements by a certified accountant.
3. The fund lending to Chainwin Biotech and Agrotech (Cayman Islands) Co., Ltd.'s non-Taiwan subsidiaries (between subsidiaries) having, directly or indirectly, 100% of the voting rights; or the fund lending to the parent company, Chainwin Biotech and Agrotech (Cayman Islands) Co., Ltd., (subsidiary-to-parent), should not be restricted by the above limitations; however, the maximum limit for an individual party should not exceed 100% of i-Chainwin Technology (Cayman Islands) Co., Ltd.'s equity, and the total amount should not exceed 200% of i-Chainwin Technology (Cayman Islands) Co., Ltd.'s equity.

Note 6: Phalanx Biotech Group, Inc.'s operating procedures of financing to other parties：
1. The loan limit to an individual party：(1) the total amount for lending to a company having business relationship with Phalanx Biotech Group, Inc. shall not exceed their previous or current's total purchasing or sales amount (whichever is higher).
(2) the total amount for lending to a company having short-term funding needs shall not exceed 20% of Phalanx Biotech Group, Inc.'s equity based on its most recent audited or reviewed financial statements by a certified accountant.
2. The maximum loans to other parties provided by Phalanx Biotech Group, Inc. should not exceed 40% of its equity based on its most recent audited or reviewed financial statements by a certified accountant.

Note 7: The aforementioned amount was translated at the exchange rate on the balance sheet date from USD to NTD for NTD 27.68.

Note 8: The amount of the transaction had been offset in the consolidated financial statements.
