

能源政策

Energy policy

追求企業永續經營，持續推動能源管理措施，提升能源使用效率與績效，逐步使用再生能源，以達溫室氣體淨零排放。

WIN Semiconductors Corp. will seek to pursue sustainable business operations, to continually promote energy management measures, to improve energy efficiency and performance, and to gradually use renewable energy to achieve net zero emissions.

我們承諾：

We are committed to taking the following steps to support this policy：

1. 確實遵守政府能源管理法規及其他同意之要求。

To comply with all energy management laws and regulations promulgated by the government and other agree-on requirements related to energy use, consumption and efficiency.

2. 強化員工節能意識，建構節能企業文化。

To strengthen employees' energy-saving awareness and build an corporate culture of energy-saving.

3. 提供相關資訊與資源，以達成設定之目標與能源標的。

To provide relevant information and resources to achieve the set energy objectives and targets.

4. 優先考慮高能源效率之設備、產品及服務，支持能源績效改善之設計。

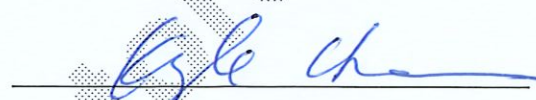

To give priority to high-efficiency equipment, products, and services in our procurement process, and to encourage design of energy performance improvement in our existing operations.

5. 持續改善能源管理系統，提升能源績效。

To improve energy management system continuously to enhance energy performance.
